About Amuse Labs

Amuse Labs is a growing startup based out of Bangalore and San Francisco, and is the leading online provider of knowledge games such as crosswords and sudoku puzzles. It was born out of a collaboration between the computer science and journalism departments at Stanford University, and counts as its customers some of the leading news publishers of the world, such as The Washington Post, The Guardian, The New Yorker, The Atlantic , The Los Angeles Times, Vox, The Times Of India, and others. Your work will thus have worldwide visibility and impact. Expect to work on fast-paced and innovative projects with a world-class team.

We are based out of a WeWork office in Bangalore. Flexibility in location is allowed, especially during Covid times. Salary will be comparable to that of MNC product companies and commensurate with experience. We are a small and tightly-knit team of about 17 people and looking to grow quickly, but selectively.

Full Stack Engineer
