Environmental and Social Data Senior Associate - India Team

Full time

Description

About Arabesque S-Ray®

Arabesque is a global investment management and technology firm that brings a new dimension to investing, using machine learning techniques, quantitative models, and big data to assess the performance and sustainability of globally listed companies and to construct investment portfolios. Arabesque offers investment solutions to clients and provides third parties with its sustainability analysis, originating from our proprietary technology, Arabesque S-Ray ®. Arabesque S-Ray® is a technology firm that combines sustainability data, big data and machine learning to provide data products and research to empower investors, corporates and other stakeholders to make more sustainable decisions.

Our story is one of a partnership between leaders in finance, science, and sustainability to accelerate the transition to a more sustainable future. It is our mission to make sustainable and responsible investing economically attractive and available to all, and to empower people through data. We firmly believe that finance can be a catalyst of change.

With headquarters in London and offices in Frankfurt, Singapore, and Boston, the firm is in a period of rapid international growth.

The Environmental and Social Data Team

We drive Arabesque S-Ray's data and are responsible for investigating and assessing core ESG risks + opportunities faced by companies in the Arabesque S-Ray rating universe. We are looking for new passionate, competent, and technically skilled team members who like to work in a collaborative environment to innovate, advance, and contribute to the development of the S-Ray® technology. You will be part of the global ESG Data Team and work on a wide variety of projects with a focus on ESG, climate, corporate governance, and sustainability data. In this, your main responsibility will be evaluating ESG performance, controversies and product involvement of publicly traded companies globally.

Arabesque strongly believes that a team made up of diverse ethnic, religious, social, educational, gender and sexual orientation backgrounds best contributes to the mission and growth strategy of

the business going forward. We, therefore, strongly encourage applicants from every background to apply and join our exceptional team.

Requirements

We are looking to hire new resource with experience in Environmental and Social, and sustainability data to join our team and contribute to Arabesque's global growth. You will be responsible and accountable for contributing to grow Arabesque S-Ray's data products and for ensuring high content quality.

You Are Expected To

- develop expertise in sourcing Environmental and Social performance data of companies
- collect data for companies across multiple sectors from Sustainability Reports, Integrated Reports, UNGC – COP, Annual Reports, CSR Reports, among others
- evaluate controversies and product related litigations of publicly traded companies globally
- maintain our high data quality standards with regular ESG data quality checks
- develop sectoral knowledge on ESG certification, management systems, standards which are all required for ESG research

We Are Keen To Hire Professionals Who

• have 4-8 years' experience in ESG ratings research, asset management research, asset owner or investment consultant research, think tanks focused sustainability, or academic research institutes
• have familiarity with non-financial reporting frameworks, including GRI Standards, TCFD, UNGC-COP, UNPRI, among others
• have a strong interest in ESG trends and specific knowledge about the dominant ESG issues for selected industries, such as (not limited to) water, climate change, waste, circular economy, CSR, Shared Value Models, EIAs/SIAs, Energy Management.
• Experience in managing teams is a must
• understand the reasoning behind integrating sustainability information into decision making processes
• are familiar with articulating analytical viewpoints and work with attention to detail
• have experience in training and mentoring team members and managing team members with diverse skill sets
• possess a good command of the English language—speaking and writing
• are not afraid of new empirical challenges and learning a new area of expertise
• can draw inferences from and develop insights on data trends
• can prioritise activities and meet challenging timelines
• possess excellent knowledge of the MS Office Suite, particularly MS Excel
• are motivated and passionate about sustainable finance and climate investing

Benefits

What To Expect

- Expect to advance your understanding of sustainable finance subjects, meet thoughtful people across different fields of expertise, and contribute to unique research products that will make you proud
- Expect a work environment that isn't based on bureaucracy and formalities, but on integrity, ambition and the expectation that everyone is delivering to the best of their abilities
- Expect to be challenged and get ready to find your own niche in the global ESG Data Research team

Equal Opportunities

Arabesque is an equal opportunity employer, and all qualified applicants will be afforded equal employment opportunities without discrimination because of actual or perceived race, color, national origin, sex, age, religion, creed, disability, marital status, citizenship, ancestry, personal appearance, sexual orientation, gender identity or expression, political affiliation, military status, status as a protected veteran, genetic information or any other legally protected status.
