Arbolus in India

Introduction

Jan 2022

London | New York | Barcelona | Gurgaon

Expert knowledge is in demand. Technology should be used to make it more accessible.

Companies are desperate to bring external expertise into their businesses.

Arbolus is the first expert knowledge platform built for large enterprises and SMBs. We give companies control of their own expert network and the collaboration tools to work with their network. We help companies retain all the knowledge in easy to access formats.

Finally, we empower businesses to use this knowledge and network throughout their business, driving value.

arbolus

Connecting the world's professionals to share relevant experience.

We are a professional network platform that helps people use trusted relationships to find and engage with the relevant person.

Then we make it easy for them to engage with each other.

We have tools that makes project work, contracts and payments easy when a connection turns to a formal relationship.

arbolus

Arbolus is the only TRUE platform where you can

#Find

...experts through our marketplace

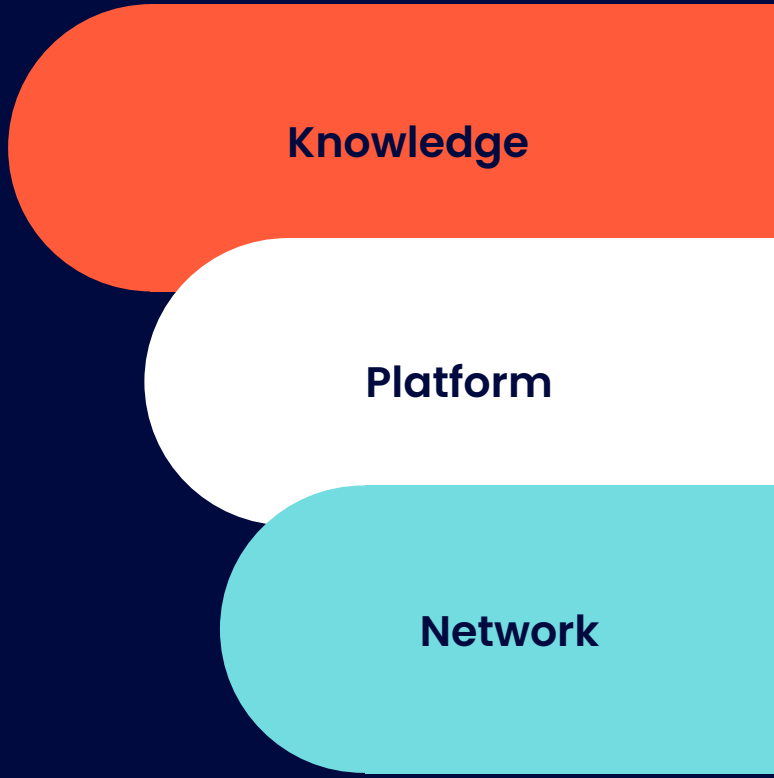

#Invite

...all your experts into your secure eco-system

#Collaborate

...with experts more flexibly and compliantly

Our Knowledge Platform is the most efficient way to gain an information advantage
