Centre for CIVIL SOCIETY
SOCIAL CHANGE THROUGH PUBLIC POLICY

Project Manager, Jeevika

Centre for Civil Society seeks a committed, successful, and experienced individual as the Project Manager for the Jeevika project.

CONTEXT

Centre for Civil Society (CCS) is an independent, non-profit, research and educational think tank based in New Delhi committed to increasing opportunity, prosperity, and quality of life for every Indian by reinvigorating civil society and readjusting political society. Our mission is to promote social change through public policy by being a resource for innovative community and market based ideas for critical policy issues particularly in the areas of education, livelihood, governance, rule of law, environment, and globalization.

Our work aims to ensure greater livelihood freedom for street entrepreneurs.

ABOUT THE PROJECT

CCS has recorded several instances of street vendors standing up to Judicial and Public Officials, fighting their own cases, and ensuring they do not get harassed when they are made legally aware of their rights under law. Relying on the evidence that close to 42% of our population uses smartphones, we aim to use technology to bridge the information gaps. We propose to develop a comprehensive mobile app called 'Jeevika' for street vendors.

The mobile application (made available in Hindi), will become a one stop access for street vendors in Delhi by: (i) creating a legal aid and SOS platform that will connect vendors to law students or lawyers in case of harassment; (ii) enabling street vendors to geo-tag themselves for verifying their property right claims; (iii) collating data on harassment and generating heat maps. The project aims to provide legal tools for street vendors to be able to defend their rights and fight petty cases of harassment.

JOB PROFILE

We are currently seeking an experienced and dedicated **Project Manager**, to head the Jeevika team.

The Project Manager will be responsible for ensuring that a high-quality app, in line with the goals of CCS, is developed and promoted across all relevant stakeholders. This will require the Manager to work with different teams within CCS to develop, capacitate, and deliver the research.

KEY RESPONSIBILITIES

1. *Design and develop a robust mobile application:* Finalise the key specifications of the mobile application, identify the right vendor for app development and closely oversee its development;
2. *Successful pilot test of the prototype*: Test the prototype among 100 street vendors and build an assessment mechanism to receive periodic feedback from app users.
3. *Market the application:* Formulate a plan for marketing and promoting the application (online and offline) across relevant stakeholders; oversee social media campaigns and promotions.
4. *Expand user base:* Ensure expansion in the number of application users and the reach of the app; conduct assessments to examine the uptake of the application; oversee the modification of application features based on the feedback received from app users.

5. *Project management*: Track deliverables against the set milestones; ensure timely completion of all outputs; hire, manage, and coordinate with the team to execute the project; manage contracts with external partners (if any).

QUALIFICATIONS AND EXPERIENCE

Formal training and experience

- 2-3 years of experience in project management, and product marketing and promotion
- 2 years or more of relevant experience in leading teams

Skills

- Strong writing and communication skills in English and Hindi
- Basic proficiency in data collection and analysis
- Intermediate proficiency in Microsoft Excel and Powerpoint
- Strong networking and persuasion skills
- Strong project management skills

Domain expertise

- Marketing and leadership experience; *some knowledge of mobile applications is desired*.

COMPENSATION

CCS recognises that the right candidate will have a significant impact on the success of the project and is prepared to offer an attractive compensation package for the non-profit sector, commensurate with experience.

LOCATION

The position will be based in CCS headquarters in Delhi.
