JOB DESCRIPTION

Job Title: Associate – Learning Products **Department:** Learning Products
Location: Bengaluru, Karnataka

Centre for Teacher Accreditation (CENTA) Private Limited (CENTA®) is a 7-year-old education company, focused on making teaching a more aspirational profession, and through that, fundamentally impacting the quality of education in a self-sustained market-driven manner. CENTA® assesses and certifies the competencies of teachers, creates rewarding career paths for them and supports their professional development.

CENTA® Certification is widely used in teacher recruiting, promotions, etc. As a result of the opportunities and rewards created, a much larger population of teachers is motivated to continuously improve their competencies and be more effective. Through its **technology platform MyCENTA**, CENTA® currently works on **Certification, Learning, Careers and Community, with over 500,000 teachers, coming from 6,000 locations and 80,000 schools** across India, and also has a starting international footprint (UAE, Philippines, Nigeria, Bangladesh, UK etc). *More on www.centa.org and m.centa.org.*

Role and Responsibilities:

- Design and execute high-quality professional development modules for teachers including managing the process and operations.
- Work with external entities including various institutions and faculties across the education and related landscapes, within and outside India over a range of projects.
- Create relevant assessments and evaluation tools - including rubrics and practical assignments.
- Curate and create a range of open-source resources on specific teacher competencies mapped in CENTA Standards.
- Continuously develop the Learning side of MyCENTA in terms of what is most relevant for teachers and based on market feedback.
- Do regular analyses on aspects like quality of training, resources, etc. with large volume data.
- Opportunity to lead various domains/products in due time.

SKILLS and EXPERIENCE:

- At least 2 years of experience in content development/training/teacher development is preferred. Teaching background will be a plus but not necessary.
- Understanding of general and subject-specific pedagogy is necessary.
- Strong verbal and written communication skills in English.
- Highly organized, with ability to manage multiple streams of work and basic process management to take things to closure.
- Drive, perseverance, rigor and attention to detail.
- Ability to build strong interpersonal relationships.

SALARY: Competitive salary based on experience and skills.
