CENTA, an ed-tech company is looking for
Associate, Business Development (BD)
Operations Associate, Business Development (BD)
Bangalore-based, in-office.

CENTA®, a 7-year-old education company based in Bangalore, is India's largest platform for teachers and among the top 5 globally. We support teachers' end-to-end – assessment and certification, training and career growth, and earning opportunities. Our mission is to make teaching a more aspirational profession and therefore bring about fundamental sustainable change in the quality of education. A Registered Certification Trademark, CENTA® currently works with **6 lakh teachers, from 90,000+ schools and organisations, 16 State Governments, and 6000+ locations across India**, rapidly growing, and has a starting international footprint in the **Middle East, South East Asia, Africa and UK**. Set up by IIT-IIM alumni with several years of experience in leading global companies, CENTA® has been widely recognized including by NITI Aayog, United Nations, NUS Singapore and others. Example: recent coverage in CXO Outlook.

We are looking to fill 2 key roles in CENTA's Business Development team. If you would like to be part of this exciting journey of a rapid growth stage ed-tech, also having a large social impact, do apply by filling this short form: **https://forms.gle/rHQ2DFkG3Zzw6Xwp9**

1. Associate - Business Development

The BD Associate role aims to own and build revenue through a set of clients and partnerships (with schools, ed-tech companies, governments, media entities, channel partners, etc.). Currently working directly with the BD Head, this role offers stellar future growth potential including opportunities to own business lines, establish CENTA's presence in specific countries and to have a career path towards BD Head and beyond.

Roles and responsibilities:

- Build a strong business line towards significant revenue.
- Create and maintain a strong leads pipeline and top of funnel - initiate outreach to educational organisations within India and in other countries.
- Develop clientele and partnerships with a large number of education entities within and outside India – over time, independently build relationships with organisations across the education spectrum, that can then become your own clientele and partnerships to maintain.
- Ensure strong client service, with support from relevant teams.
- Ensure client engagement and continuous sales growth, by proactively seeking feedback, understanding needs and providing updates on CENTA's latest products/services.
- The role will involve travel when meetings are feasible in person.

Skills/Experience needed:

- Preferably at least 2 years of business development / sales management experience. B2B development experience in education companies (publishers, technology products, assessment, etc.) will be a plus but not necessary.
- Ability to build strong interpersonal relationships with clients and partners; good verbal and written communication.
- Drive, proactiveness, and perseverance to take deals to closure and pursue growth.
- Strong client service, with high integrity at every step.
- Highly comfortable with use of common technology for work, especially Google suite (Sheets, Docs, etc) and MS Office suite (Excel, Word, Power Point).

2. Operations Associate - Business Development

The BD Operations primarily role involves the non client-facing aspects of BD such as maintaining collaterals, data analysis, scheduling, etc. This role offers exciting career paths in BD, marketing, etc, with potential for owning and driving client portfolios.

Roles and responsibilities:

- Entering and maintaining relevant data for various purposes of BD - various client and partner databases.
- Improve databases by adding to it over time and running regular clean-ups.
- Creating relevant collaterals and updating them over time to reflect changes where necessary.
- Service various aspects of client relationships such as scheduling a project and its sub-parts, sharing project results with clients, sharing required data with partners, requesting for specific data that may be required from clients / partners, etc.
- Making calls to convert specific clients for specific projects.
- Ensure best practices in client service.

Skills/Experience needed:

- We are looking for professionals with some customer operations experience, or freshers or lateral hires keen to build a career in BD over time.
- Experience in education companies (publishers, technology products, assessment, etc.) will be a plus but not necessary.
- Drive, proactiveness, and rigor to maintain databases, process flows, and ensure high quality client servicing.
- High integrity at every step of client servicing.
- Good verbal and written communication.
- Highly comfortable with use of common technology for work, especially Google suite (Sheets, Docs, etc) and MS Office suite (Excel, Word, Power Point).
