Product Analyst

Who we are:

FlexiLoans is a technology based online financing platform started with an endeavor to solve the problems that small businesses face in accessing Quick, Flexible and Adequate funds for growing their Businesses. Our vision is to give "Financial access at a click". We are the leaders in using technology and risk models that focus on alternate / surrogate methods for scoring customers. Our product offerings and value proposition can be accessed on our website: http://www.flexiloans.in/

FlexiLoans is a funded start-up. FlexiLoans is one of the Leading Digital Lending Platforms for small businesses now with over 50 partnerships like Flipkart, Snapdeal, Paytm, Mswipe, Uber, Ola, etc. for accessing over 2mn businesses. It is founded by 4 ISB/ IIT alumni with over 45+ years of financial experience.

VALUES OF FLEXILOANS -COLLABORATION | AGILITY | INNOVATION | RESPECT | OWNERSHIP
