IMAGINING POLICY ACTIONS FOR TRADE

GLOBAL TRADE OBSERVER

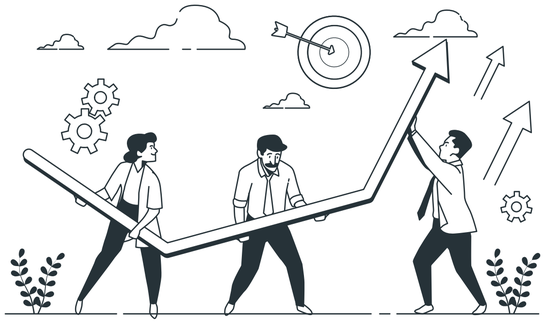
We are here for a purpose.
To solve greatest challenges around international trade.
To steer 21st century policy making.
To mould India beyond India.
And to make India a global trade superpower.

As we step into our fourth decade of empowering international trade from India, we are even more committed to contribute to India's economic growth from grassroots and across the globe.

Enhanced accountability, more impatience and greater drive for change.
More questions to be solved, higher resilience to fuel selfless national growth.

We believe in the power of actions driven by a purpose.
And we are looking for people to join us in this journey to make India a $5T economy.
People who can envision India achieving it's true trade potential.
Restless innovators and passionate doers.

Who are here to lead IMPACT.



Solving greatest challenges around global trade

Welcome to the 21st Century Policy-making. We are driven by the passion to decode and reconstruct the most complex policy frameworks through an advanced lens to ensure that India maximises its trade potential.

GTO aims to be the trusted source for various stakeholders viz. institutions, government agencies, academicians, policy makers, trade councils by ensuring that important decisions are rooted in thorough research and information. We understand the actuality of constraints related to Cross Border Trade. Amalgamating this cognition with three decades of pedigree in empowering various industries in navigating the Foreign Trade Policy supported by a vast data repository for analytic interpretations allows us to provide real-world recommendations of the finest quality. We are creating policy consensus of different persuasions to help devise pragmatic trade policy solutions thereby shaping global conversations and promoting trade growth.

Never doubt that a small group of thoughtful, committed citizens can change the world; indeed, it's the only thing that ever has. -Margaret Mead

Data Analytics

We root the reliability of its recommendations through an intelligent, big-data driven system where we run 8 digit level HS code analysis at district level to review current status, policy implications, sectoral and geographic trends, movement of trade variables, trade competitiveness and growth areas identification.

Are you a someone who thrives on data crunching, and wants to support the larger teams with their technical skills
->

Program Management

The core of our innovation process ensures we work with varied stakeholders to develop opportunities to create value. The viability of this innovation is established by our methodology which is an overlap of three critical factors – big data analysis, intuitive intelligence of people, and practical on-ground realities.

Are you someone who wants to oversee and coordinate various projects and other strategic initiatives across functions
->

Research Analyts

We deep dive into India's trade economy to present qualitative and thouroughly researched with the intent to share valuable insights and a 360-degree view of the current as well as the foreseeable implications of the Foreign Trade Policy of India and its impacts on all sectors, geographies and demographics.

Are you someone who is passionate about Trade, Economy and Public Policy and wants to create impactful changes
->

Business

Our recommendations take into account grassroots realities, need of various industries in India and trends in the global markets. The recommendation framework interlinks the data evidences, policy consensus created and on ground actualities. We also develop collaterals across mediums for knowledge dissemination.

Are you someone who has an entrepreneurial mindset and wants to lead project deliveries and media
->

Become GTO Campus Ambassador

We are on the look-out for highly driven and enthusiastic students having a drive to do impactful work with strong interpersonal skills, leadership qualities and are always eager to lead. We select one GTO Campus Ambassador from all the best colleges across India. Campus Ambassadors are first year students shortlisted through a structured selection process in the beginning of their academic curriculum. They are given this responsibility for the entire duration of their academic year to be the 'Change Agents' on campus. GTO campus ambassadors are the bridge between GTO and their college peers.

Program Highlights

- A unique position of responsibility to get a glimpse into the corporate world while in college
- Take up more responsibilities to learn and enhance your technical skillsets
- ɲnovate and collaborate actively to engage your peers in GTO activities
- Represent GTO IMPACT and lead its Programs and Initiatives on campus

What is at offer ?

- Lead. Learn. Grow.
- Certificate of Excellence
- Rewards and recognition
- Networking and coordination with Industry's best
- Pre-placement Interview
- Career Mentorship from Experts

YOUR Application Process

Our selection process differs for all programs and roles, but here are some basic steps we follow to get to know you better. We are very inquisitive and open to have conversations with everyone. Also we keep experimenting with all kinds of things and fail plenty of times as we search for improvements. So don't shy away if you cannot seem to make up your mind on role. Let us together work on the scope and scale of our mission which constantly drives us to experiment, ideate, create and even fail but learn and grow.

Step 1

Online application submission

Screening based on role, team and expertise fitment

Step 2

Case based assesment presentation

Evaluating practical application of technical knowledge and skills

Step 3

Online or offline Interview

Gauging your commitment to contribute to the program

Step 4

Conversation with Core Change-Agents

Understanding your conviction in the vision
