ICRIER IS HIRING

ICRIER invites applications for the position of a Research Assistant/ Research Associate for the Digital Economy, Start Up and Innovation Team (DESI)

The Indian Council for Research on International Economic Relations (ICRIER) is inviting applications for the position of a Research Assistant/ Research Associate for their Digital Economy, Start Up and Innovation (DESI) team. We are looking for bright, motivated and enthusiastic candidates interested in engaging with areas of technology and telecom policy research.

Qualifications

Candidates with post graduate / Master's degree in economics or public policy are encouraged to apply. Candidates from different disciplines or with multi-disciplinary backgrounds with experience in policy work or inclined to transition to policy work are encouraged to apply. For the position of a Research Assistant work experience can vary between 0-2 years, however, for a Research Associate the candidate must have a minimum two years of work experience post a Master's degree.

Knowledge and experience of both qualitative and quantitative research methods and familiarity with interdisciplinary research methodologies will be necessary. Prior knowledge and research experience on digital economy issues would be a plus. Fluency in oral and written English will be welcome. Good interpersonal skills and the ability to work in a team will be important.

Roles and Responsibilities

- Contribute to research related activities that include data collection and statistical analysis, literature review, regulatory benchmarking, report writing, etc.
- Create and manage databases
- Design questionnaires for field level surveys
- Write independent blogs and policy briefs
- Organize events and stakeholder consultations as per the requirement of different research projects.
- Contribute to writing of research proposals, white papers, policy briefs and reports
- Contribute to institutional activities such as supporting the IT Committee, Library Committee or volunteering for event rapporteuring, etc.
