IMAGE FOUNDRY

Manchester London New Delhi

Role: Associate Project Manager - Interior CGI
Reports to: Both UK and India Directors
Location: New Delhi

You will work closely with the 3D artists across our European and India teams. Your primary objective is to provide structure and support to the team so they can achieve their best results and the account management team can keep the clients well informed and happy. **Key responsibilities include:**

- Managing daily schedules of artists by holding daily production management meetings with them, and providing daily updates to the account team on all ongoing/active projects.
- Leading and coordinating projects from start(brief-in) to the final delivery by ensuring various stages are completed as per client and creative brief.
- Evaluating current production and management processes and suggesting improvements.
- Working cross-functionally with teams to provide timelines for various stages of projects, and ensuring their timely completion.
- **Feedback:** Analysing client feedback (at different stages) and will work with artists for its incorporation into projects.
- **Support**: You will provide the necessary support to the artists whenever needed.

Day to Day Activities

- Act as the liaison with the production team and account management team (interiors)
- Liaise with clients if required - Note this will not be a regular occurrence as the client handling team will be responsible for handling client contact
- Sit in on client calls when necessary
- Daily / weekly ensure files are up to date on a shared drive and on Server
- Keep production schedule up to date
- Create work schedules for artists
- Produce project and task estimates (working with the artists) for jobs
- Ensure that all tasks have agreed time budgets in place and monitor these to ensure that projects don’t run over budget
- Regular catch up with individual artists to see how they are getting on and flagging up any issues with the management team
- Check Artist Timesheets (UK and India) to ensure they have been completed as required
- Conduct Regular shot reviews (Interiors and Exteriors)

- On-boarding new artists
- Weekly report to senior management on how projects are running and flag up projects that are of concern and also projects that are going well
- Ensure that any artist holidays are covered with other artists being able to step in and support projects
- Create asset packs for all new projects b

Initial One- Off Work / Projects:

- Review current project management processes (systems and procedures) and look at ways and systems that can be implemented to improve efficiency and the smooth running of projects. - Interiors
- Look at ways to ensure high levels of team motivation keep artists engaged with their work and the wider team
- Develop the use of Zoho Cliq as a channel for general communications
- Collate all old projects from freelancers and make sure they all work
- Ensure that we have a remote file working structure in place for the UK / EU team ie using google drive or dropbox or any other software that would allow us to be able to house texture libraries and other project files
