About ISDM

ISDM is an institution founded to create, strengthen and establish Development Management, a domain that transcends the exclusive silos of 'development perspectives' and 'management principles'. ISDM recognises the need to 'professionalise' the Leading and Managing of Social Purpose Organisations (SPOs). The institution sees the development space as requiring the application of management disciplines that are unique and tailored to the scale of the sector. Management that doesn't merely retrofit Business Management to development projects, but one that is born specifically from the coming together of the two crucial domains.

By 2025, ISDM aims to become the go-to management institute for top professionals wanting to transform the development sector for a greater impact on people's lives. In order to achieve this aim, ISDM has identified three broad focus areas

1. Continuously building the one-year-long Post-Graduate Program in Development Management (PGP-DM);
2. Creating a strong research function that will lay the foundations for Development Management and leadership as a unique domain and discipline;
3. Launching Strategic Capacity Building Programs aimed at influencing and upskilling middle to senior leaders in the social sector through special workshops, short-term courses, and customized convenings.

ISDM has audacious ambitions to build a world-class institution, become a global fountainhead of development management knowledge, and define the domain of development management for the Social Sectors. The belief is that Management for the Social Sectors (or Development Management) will significantly scale up the positive impacts on the lives of people in sustained ways. ISDM is entering a new phase of growth with a revamped program and renewed focus on establishing itself firmly as a preeminent institution in its domain. This requires strategic and energetic institutional leadership.

About Strategic Capacity Building

Strategic Capacity Building(SCB) at ISDM began with a view that while the 1-year PGP is impacting fresh graduates and young professionals, Body of Knowledge is focussed on curating and building 2 | page knowledge, there is a great need to work with the mid and senior management and leadership in the sector today, to be able to evangelise the change we want to see and build the society we envision. SCB includes programs for middle and senior management in the sector across roles and segments, courses specifically for women leaders, entrepreneurs, senior govt offices, volunteers etc. and can be delivered in a variety of ways comprising bridge programs, short and medium duration courses, online courses and immersions etc.

Job Description

You will work in the Strategic Capacity Building team, and be responsible for building and delivering capacity building programs for people in the sector.
