## BRAND SPECIFIC HEADLINE

HELPING OUR CLIENT GROW GREAT BRANDS

## JOB DETAILS

Job Title: Associate Manager - Media Analytics

Location: Mumbai

Skale: 40

## ROLE MISSION STATEMENT:

Advise our clients on the brand performance and deliver creative solutions

## BRAND AND KANTAR STATEMENT:

Kantar is the world's leading evidence-based insights and consulting company. We have a complete, unique and rounded understanding of how people think, feel and act; globally and locally in over 90 markets. By combining the deep expertise of our people, our data resources and benchmarks, our innovative analytics and technology, we help our clients understand people and inspire growth.

## KEY OUTCOMES STATEMENT:

The Associate Manager is part of the Media analytics team who would serve as a liaison between Hub and MB CS teams, with the objective of meeting client needs, assisting in developing the new business.

1. The role will require a high degree of collaboration with stakeholders in offices across the World and strong project management skills.
2. Accordingly, top-notch communication skills - oral and written are vital. The person should be comfortable working under pressure and within tight deadlines.
3. The Global Media Analytics Hub is a prestigious global unit based out of Mumbai, India
4. The Hub specializes in analytics for various marquee MB solutions across the organization. It is also tasked with media norms management, along with conceptualizing and building advanced next-generation automation including media management and planning tools and dashboard.

## CAPABILITIES STATEMENT

1. Developing knowledge of market research
2. Strong analytical skills
3. Developing ability to build client relationships

4. Strong communication skills, both written and verbal
5. Commercial awareness
6. Educational background: Post-graduate in Mathematics/ Statistics/ Data Science/ Marketing.
7. Any experience in Media/ Marketing/Media Research/Marketing Research domain will be of advantage.
8. Candidate must be comfortable with using tools such as Microsoft Excel, SPSS and R and in dealing with large and small datasets. While not essential, intermediate to advanced level knowledge of coding with software like VBA, R, Java, HTML, .NET will be considered a major plus point.
9. Candidate must have a high degree of comfort and strong liking for statistical analysis and numbers. He/she should have a keen eye for detail and should be diligent in delivering accurate, clear, error-free work - as these are essential requirements for the role.

## REWARDS STATEMENT:

At Kantar we have an integrated way of rewarding our people based around a simple, clear and consistent set of principles. Our approach helps to ensure we are market competitive and also to support a pay for performance culture, where your reward and career progression opportunities are linked to what you deliver.

## APPLICATION STATEMENT:

Make sure your profile is updated for you to apply and not miss an exciting opportunity to work for our company
