LeadSquared is looking for **Software interns** to join our Presales team in Bengaluru.

LeadSquared (www.leadsquared.com) is looking for highly motivated and energetic interns to be part of Customer Success team. The responsibility includes solution design and implementation (of LeadSquared application), onboarding & training customers, driving adoption, customer engagement, renewals and retention management and customer satisfaction.

Who we are?
LeadSquared is a leading Sales Execution and Marketing Automation platform used by over 1000 businesses worldwide to automate their New Sales, Renewals/Upsells and Field Sales processes. Customers control the buying process in the digital economy. Traditional CRM and marketing systems are old school in serving the needs of high velocity sales processes. LeadSquared offers next generation, AI enabled automation process engine that helps organizations automate, analyze and optimize their sales and marketing processes.

LeadSquared has been recognized as one of the fastest growing companies in the world:

- Among Top 50 fastest growing tech companies in India as per Deloitte Fast 50 programs
- Among Top 100 fastest growing companies in FT 1000: High-Growth Companies Asia-Pacific
- Listed as Top Rates Product on G2Crowd, GetApp and TrustRadius

LeadSquared is backed by institutional investors like GAJA Capital, Stakeboat Capital and angels like Jyoti Bansal.

What you will be doing?

At Leadsquared, a Presales member is basically a "Solution Expert" who is expected to be good at both Sales & Software/Technology.

Requirements:

Must have:
- Engineering - B.Tech / M.Tech (preferably from Computer Science) or MCA is a MUST.
- Good academic record in 10th, 12th, Graduation and Masters.
- Excellent written and verbal communication (English) skills.
- Excellent presentation and demonstration skills.
- Excellent Software skills, Aptitude and Problem-Solving Skills.
- Should be passionate about customer-facing roles.
- Ability to grasp new technologies and drive executions quickly.
- Should have excellent work ethics and be a wonderful team player and collaborator.

Good to have:
- Knowledge of SaaS, CRM Tools, Sales & Marketing Tools, Cloud/AWS would be a plus
- Hands-on programming experience in any language will be a plus.
- Hands-on experience in configuring / customising any software tool will be a plus.
- Knowledge of Databases (SQL, MySQL, Mongo, Cache etc.) will be a plus.
- Experience in building or selling any software (web/mobile app) will be a plus.
- Knowledge of New Age Tools & Technologies like AI/ML/RPA/Blockchain etc will be a plus.
- Knowledge of Sales & Marketing processes and Digital Transformations being followed/adopted across various businesses will be a plus.

Key Responsibilities:

- Collaborate with Senior Presales Members / Managers to present and demonstrate end-to-end product capabilities to all required point-of-contacts at prospect's / customer's end.
- To deliver a high-quality experience to the prospects & customers during engagement, acquisition, and on-boarding (in consultation with senior members).
- Create Solution Document / Business Proposals, respond to RFQs/RFPs and configure / customize demos as per client's need, to help sales team negotiate contracts and drive deal closures.
- Gain thorough understanding of the product/platform and continuously learn from new product updates and pitch them appropriately to the clients, based on their requirements.
- Understand the software and tools' ecosystem of each prospect/customer and come up with most optimal ways of connecting LeadSquared to them.
- Gain continuous knowledge of competition landscape and their offerings across all required domains and regions.
- Providing continuous feedback to product development / delivery team / sales team with respect to new trends / solution expectation from the customer sides based on market demand / research.
- Continuous engagement with technology, delivery partners and 3rd party technology vendors to drive innovations and enhancements to product / platform, thereby creating new opportunities for up-sell / cross-sell across various domains / business verticals and across all regions.
- Follow best practices and drive process efficiencies / automations & technology innovations.
- Should aim to become the solution expert and go-to-person for Regional sales team to provide solutions to cater to various customer demands and business needs.
- Build strong relationships with clients & partners and continuously explore upsell / cross-sell opportunities for LeadSquared product or services with them, in close collaboration with Sales Team / Customer Success Team.
- Participate actively and deliver Knowledge Sharing Sessions & Trainings to internal teams / partners.
