Digital Curriculum Coordinator, Curriculum

Digital Curriculum - India

We're looking for a digital curriculum coordinator to manage our digital course assets and create digital classes for our clients.

Mentora enables organizations to thrive in today's fast-changing world by growing their purpose, people, and performance. We offer training on a range of leadership skills, and our flagship "Inner Mastery|Outer Impact" program develops the 360-degree leader. We're in the midst of growth and already serving the leadership needs of many companies across different industries across the globe.

As a Digital Curriculum coordinator on our Curriculum team, you will work closely with our senior program designers and faculty, our client success, video production, and the digital technology teams to create engaging, interactive learning experiences for our participants. Your exceptional organizational and project management skills and curiosity for improving course impact will be crucial in creating a joyful and transforming digital experience for our participants.

Here are some examples of projects you might work on:

- **Designing a digital course** - Build world-class learning and communication experiences that are proven to change businesses as well as the people who work in them. Communicate with stakeholders regarding course design elements, goals, deadlines, and objectives.
- **Digital course evolution** - Evaluating the impact of solutions and continuously improving them. Incorporate best practices for innovative and engaging learning.
- **Video management** - as the custodian of our 100+ hours of video content you organize and tag them and are the resident expert on video suggestions by other teams like client success and marketing.
- **Readiness of digital class setup** - ensuring all classes going live have been checked for accuracy and clarity.

MENTORA
Inner Mastery, Outer Impact

About You

Having some experience in this field helps. Having some experience in this field helps. But in its absence, if you excel on other fronts, love what this post can offer, and bring a desire to learn, we can work together to get you up and running soon.

Being organized is in your DNA. To successfully manage the many elements of just one digital course and now multiple that with 20+ courses, you need to be a master of digital organizing.

You've good command over English. You are fluent in written and spoken English.

You have vital planning and execution skills. Coordinating with various internal teams like design, technology, and client success, you ensure on-time delivery of the curriculum assets.

You have very good attention to detail. No errors slip past you.

You are a learner. You bring a growth mindset to your work and are always striving to improve the impact and performance of our digital classes.

You stay calm under tight deadlines. Your good project and time management skills enable you to break down projects into small pieces, know what to prioritize, and when to ask for additional resources. Therefore, you bring serenity to your work, no matter how big or complex it may be.

The Whole Package

Location: Remote - With a preference for the Gurgaon-Delhi area for occasional meet ups with your team.

Mentora offers:

- Inspiring work that has a real impact in people's work and personal lives
- Competitive salary
- Investment in your personal growth and development in the form of courses, conferences, book allowance and more
- Leading-edge equipment. We set you up with an Apple laptop and provide an additional budget for you to choose other home office accessories.
