About Us

We assist high school students who are looking to study overseas for their undergraduate degree. Along with helping students navigate the study abroad admissions process, we focus on creating a Stand out Factor (SOF), which helps differentiate every student’s application.

We work with students both in India as well as abroad. In fact, 40% of our clients are based in cities where we have no physical presence, with the entire engagement carried out online.

Our students have received placements in all the top universities across the globe including Stanford, Harvard, MIT, Columbia, Oxford and Cambridge and secured over $40 million in scholarships.

Testimonials

Throughout my high school journey, my counsellors at OnCourse always did everything to make me realise where my heart lies and help me identify the steps I must take to reach my goal. The ever stressful college application process was made much easier for me as my mentors helped me narrow down college lists in advance and gave me detailed guidance on each essay. Were it not for the OnCourse family that does so much more than just college counselling, I don't think I would've ever made it to my dream college!
Manya Kalra, Brown University

UPrep was extremely reliable and available while I was prepping with them.They designed a prep plan based on my strengths and weaknesses. Their tests were a great form of practice and the feedback and answer explanations really helped me understand why I was repeating certain mistakes. The tutors are extremely flexible, friendly and efficient and their resources are very helpful and detailed.
Raina Rathod, Cathedral & John Connon School, SAT: 1590

After filtering through the many options available for my GMAT prep, I elected to go with OnCourse's UPrep and am tremendously grateful for having done so. Supported by a team of expert teachers and highly motivated management, I was able to formulate an efficient study plan that allowed me to get a desirable score on my first attempt. The custom-made one-on-one online program fit seamlessly in my schedule. Furthermore, the round the clock support, abundance of study materials, and multiple practice tests allowed me to really polish up my preparation. I genuinely believe UPrep was the best program I could've chosen for my GMAT prep, and I would recommend it to anyone in a heartbeat.
