

THE JAI VAKEEL FOUNDATION

THE PROBLEM

One in every 50 Indians, over 26 million individuals, suffer from Intellectual Disability Disorder (IDD). In spite of this colossal figure, we as a society, still remain largely unaware of this space, and are unable to actively address the needs of these individuals.

Within the disabilities space, IDD seems to be the most invisible. Children with disabilities are one of the most marginalized and excluded groups of children, experiencing widespread violations of their rights.

WHO ARE WE?

We are one of the oldest and largest not for profit institutes in India serving children and adults with intellectual disability.

Our approach is holistic; we aim to integrate our students into mainstream society by **providing them with healthcare, education, skill development, and support services.**

We have a 2 acre campus in Sewri where we reach out to **700 individuals** and two rural branches that serve **40 children respectively.**

Over 40% of our students belong to the poorest families in the country. We have no minimum IQ requirement and till date no one has been turned away for their inability to afford our services..

OUR VISION

To strive for the inclusion of the Intellectually disabled by maximising their potential.

HEALTHCARE - We provide holistic, need based medical and therapeutic intervention to children and adults with ID. We have a multi-disciplinary team of doctors, therapists, & counsellors.

PEDIATRIC NEUROLOGY MEDICAL CAMPS - We provide free diagnosis and medical care in rural Maharashtra to children with neurological issues. Through our medical camps we have reached out to over 35,000 plus students since we started in 2010.

EDUCATION - We provide special education programmes to address each individual's unique needs. The aim is to enhance their capabilities as well as empower them to be independent in their daily life.

Mumbai – 350 Students & Autism Centre – 25 Students.
Talegaon & Deolali– 40 Students each.

PROJECT DISHA – It has been formed to initiate the much required systemic change.It is a partnership between the Department of Social Justice & Special Assistance, Government of Maharashtra and Commissionerate of PwD, Maharashtra and Jai Vakeel Foundation. It's goal is to build and disseminate a standardised curriculum to schools for Children with ID and provide training for the implementation of the curriculum across **36 districts of maharashtra, 240 special aided schools, 1300 children.**

SKILL DEVELOPMENT– We strive to maximise the potential of each student by identifying and building on skills within them that will help them lead more independent lives and become contributing members of society.

RESPITE CARE– We provide much needed respite to the parents and caregivers of individuals with profound intellectual disability.

OVER THE YEARS WE HAVE IMPACTED OVER OVER LAKH LIVES

COME BE A PART OF OUR STORY
