wooqer | APP *for* OPS

Engagement Manager

Wooqer is on a mission to create a SuperApp for Operations where business users can create, find, and discover virtually any app that makes them deliver better results everyday. By enabling users to act fast, make data driven everyday decisions and a wide selection of industry/cross industry best practices, Wooqer is emerging as the go to business platform.

As a EM, you will be working closely with the Customer Success team and you will also be a focal point for all engagements with the client and play a prime role in building and maintaining strong client relationships and increase mindshare and market share.

Role Description:

When you become the chosen one, you'll partner with bright people within the company and customers in an environment that challenges every day for us to make "great" happen.

Everyday you:

- Build upon your product expertise
- Identify growth opportunities in your account portfolio and lead account strategy and planning
- Monitor and incorporate trends and market dynamics into account strategy and plan.
- Develop customer value propositions for all appropriate business opportunities.
- Drive penetration in relevant client orgs, developing and strengthening relationships with decision-makers and influencers
- Communicate significant trends, rate changes and policies to assigned accounts.
- Develop strategies including complete marketing initiatives and prepare plan to optimize account development and sales growth.

Skillsets:

- Top-percentile Relationship Management skills
- Smart internal and external stakeholder management
- Ability to thrive in a multi-cultural, global work environment
- Excellent analytical ability and strong persuasive communication skills
- Highly proficient in Microsoft Office with a good working knowledge of web-based software and Customer Relationship.

Personality/ Attitude:

- Eye for detail while watching out for vision
- Hard working, hands on and diligent
- Responsive and take pride in making people (clients) successful
- High energy, ambitious and wanting to make a mark
- Possess enthusiasm, a strong work ethic and a willingness to learn.

About Wooqer

Our Journey

Wooqer is a one of its kind journey where profitability comes first. With customers who genuinely get value from the product and are willing to pay for it, scale is a natural next step. And that's the next phase of the Wooqer journey. We are preparing for growth.

The already available Creator tools that users love to use and the hundreds of apps users have self created on the Wooqer Super App form the foundation for our growth. Global expansion, New selling methodologies, Marketing focus and a B2B apps marketplace shall make it happen.

At Wooqer, Intelligence is hygiene and Execution capability a necessity. We build things right and blow customer expectations away, every single time. We chase crazy big goals, take full ownership, deliver excellence and celebrate our successes. We pay attention to detail and are right..most times as we simplify work for self and users. We are building the future. Today. And last but not the least, we are frugal. After all, we are still building a profitable company.
