Sherlock

XCalibrate Global SherlockSuperCoach.AI, An AI based Coaching Platform

About XCalibrate Sherlock

Do you want to be a part of building a legendary product? This opportunity is to join a startup that's building an extraordinary product that will change the lives of everyone on the planet. You will be directly working with Columbia university coaches, seasoned technology & business founders & experts who are giving shape to this product

JD for Research, Content & Marketing Action catalyst

Overall make up:

- A super charged, full of beans and creative juices flowing young adult
- Comfortable in a dynamic, agile, and high-octane environment
- Open to ideas and has a penchant for challenging others and his/her own knowledge
- Adventurous at heart
- Excited about making a difference in people's lives
- Loves to make new relationships and bonds with people

What will it take to be successful in the given role in Sherlock Team

- Super skilled in research, Highly conversant, goes the extra mile and enjoys curating content.
- Listens to understand and quick at the uptake
- Emotionally sound i.e. receives well-articulated feedback nicely
- Leverages an environment which supports experimentation
- Beyond ordinary- Looks at opportunities and possibilities others don't see, courageous enough to come up with unconventional ideas
- Fairly extroverted and has a fair idea of cultural nuances and preferences
- Always up for a challenge and stretches to deliver significant value

Job role:

- Research to support the content team
- Curate/make content with support from mentors
- Test content for meaning and impact to end user
- Participate in user labs – engage with users and report feedback
- Participate in customer journey interviews
- Research and make social media posts and create awareness about Sherlock
- Writing & researching thought leadership articles in the space of AI & Coaching

Location :

Work from anywhere as far as you are someone who delivers to his/her outcomes. We don't believe in micro-management but we believe in ownership & responsibility. We do intend to open offices in coming months & location would be Gurugram/NCR then . We would have flexible working.

How do I apply: No we don't want your resume !!

Instead we want you to record a *maximum 3-minute video* by introducing yourself and answering following questions :

1. How does your upbringing play a role in who you are today?
2. What was the reason for you to apply for this role and our startup?
3. What is the craziest thing you have done in your life so far?
4. What didn't they teach you at Ashoka which you believe you will learn with us?

Upload your 3-min (maximum) video on youtube(private link) and send us the link. We will schedule a zoom interview post we see your video.

CTC

The expected Annual Gross CTC(Cost to Company) INR 7,00,000 + ESOPs + INR 1,00,000 (Performance linked bonus(end of year))
