Intelligent Commerce

Job Description

Software Engineer

About Company: 1DigitalStack

1DS platform uses Machine learning-based Discoverability, Bid Optimization, and Data Intelligence to enable brands to grow on Amazon and other marketplaces. We aggregate and analyze large volumes of unstructured and diverse e-commerce data at scale to deliver actionable insights that drive brand growth. In a short period, we have built a BI and optimization platform used by many Fortune 500 Companies

About the Founders:

Rohit Anand: Rohit Anand is a serial entrepreneur and an alumnus of INSEAD, France. He was behind Value Edge, a healthcare analytics startup that counted among its clients, big pharma companies such as Amgen and Roche. Value Edge was acquired by WNS Holdings, an NYSE Listed company. In a few years since its founding Value Edge had become India's largest outsourcing provider to the life sciences industry with an outstanding team of 150+ with offices in Boston, Frankfurt, and Zurich and marquee clients in Europe and the US.

Rohit brings hands-on experience in building teams and culture around fairness, transparency, and huge levels of involvement. He has built teams that have delighted clients across the globe and built repeat business based on client delight.

Tarun Jyot Singh: A brand marketer by profession, Tarun has learnt marketing from Mecca of brand building – Unilever with almost 10 years of experience in brand building, followed by stints in private equity and early-stage startups. Tarun has been part of the core team that built a large consumer business across digital channels. He brings the experience of marketing strategy, deep domain expertise, and understanding of consumer brands and combines these with experience in online strategy, tactical planning, and execution. He is a seasoned practitioner on Amazon and an expert at driving growth through Marketplaces and in particular knows the ins and outs of running large and complex campaigns on Amazon. He leads operations and product at 1Digitalstack working closely with clients to delight them with outcomes that exceed expectations.
