India | Risk, Retirement, Human Capital Consulting

Uniquely Aon. Limitless Possibility

Our focus on building meaningful relationships is at the heart of driving our success. We are a global organization which allows us to deliver world class solutions to our clients but in our heart, we are small enough to be agile in how we create value to our communities and to each of our lives.

As an Aon colleague, you will never be limited by your job title. Instead, you will learn and grow alongside some of the best in the business, who're incredibly invested in bringing the best possible version out of you

We honestly believe that our culture is different, with authentic and smart individuals who each bring something unique to our teams.

Be you, be unique, be the best with us.

Our values

Our company vision

Our Company Vision is to empower economic and human possibility, as a premier global risk and human capital management advisory firm.

Our core capabilities

Our core capabilities – human capital, risk, retirement and health – connect the world on the most important issues facing our clients. Our capabilities are enabled by access to a wealth of proprietary data.

India | Risk, Retirement, Human Capital Consulting

About AON

Aon (formerly known as Aon Hewitt) is the world's pre-eminent firm offering broad range of solutions to clients in the area of risk, retirement, health, wealth and human capital solutions.
We employ the strongest team of professionals in the industry, who have access to the widest breadth and depth of research, platforms, and services in more locations and for more industry segments than any other human capital firm.
Our singular focus is on our clients: We deliver distinctive value, top-rated customer service, and measurable business impact.

Aon Human Capital Solutions

Aon's Human Capital Solutions is one of the largest full spectrum HR consulting practices and is home to firm's rewards, talent assessment, and performance & analytics practices. We apply this expertise, and our market-leading workforce data, to help clients tackle transformational projects requiring integrated solutions to client problems. We develop insights on performance and people analytics - driven by our proprietary data, technology and advisory services - to help clients reduce volatility and improve outcomes.

Your Role

We are not big on titles. You can be our chief entrepreneur, our sales ninja, our data scientist, or solution architect. For the record we will call you **Senior Analyst** - **Performance & Rewards**
This is a core client facing role where you will be expected to work on projects in the area of Rewards Design, C&B design and Benchmarking etc.

Your Team

Performance Rewards and Organization Advisory team is part of our Human Capital Solutions practice. We have more than 300 consultants serving India market helping clients with their most complex challenging problems using deep insights and analytics. We are trusted advisors for wide variety of organizations including BSE500 and work with largest set of early-stage technology organizations in the country.

Typical areas in which we help clients across variety of industries are:

- Rewards Design Management

- Performance Management
- Organizational Structuring
- Careers and Competencies
- Talent Transformation
- Digital Transformation
- Incentive Design
- Job Evaluation and Grading

Above solutions are tools we use to solve our clients most stressing problems which are at the cusp of business and talent. We pride ourselves in being the best in these areas while continuing to be able to innovate and incubate newer solution areas which allow us to continuously add values to our clients.

Your Purpose

You begin with us as somebody who is able to pull deep insights from our data, create compelling presentations and tell our clients stories they cannot forget. We expect to show ownership, accountability, and extreme learning agility. We would love for you to show us depth not only in solution areas but also in your understanding of how client organization function.

You will be a part of highly energized team in consulting and depending on projects you will wear different hats ranging from performing complex analytics, wowing our clients, managing small projects to bringing in sales.
