Assistant Manager/Manager - HR

About Organization
Arthan actively engages with stakeholders across the system to identify and address human capital challenges and opportunities to strengthen human capital in the impact sector ecosystem. Arthan has an exclusive employment platform for social impact jobs in India - https://www.arthancareers.com supporting both employers and jobseekers.

Why Arthan
As a social enterprise we are committed to strengthening the impact sector ecosystem by building the capacity of social organizations across three domains:
Talent Acquisition/Executive Search: We help organizations acquire the right individual who possesses the correct amalgamation of skills, talent and qualification that aid organizations in achieving their goals, mission and other long term strategies.
Capacity Building: Help organizations become ready for the future by building capability and excellence in the areas of human capital and organizational development.
Thought Leadership (https://www.arthansocialforum.org/)Building dialogues through knowledge sessions and research to accelerate solutions and inspire systemic and collective action
