CK Birla Healthcare – Business verticals

CK Birla Healthcare has three business verticals under it:

CK Birla Hospital ®

- A chain of **world-class hospitals** focused on the **healthcare needs of the family**
- State-of-the-art facilities which offer exceptional clinical care in an ethical, compassionate and patient-led environment
- **24/7 Critical Care coverage**
- Currently, we have two Hospitals in Gurugram and Delhi. We are planning to set up 15 more Hospitals
- In addition to these two hospitals, CK Birla Healthcare has recently taken over management of Rukmani Birla Hospital in Jaipur.

Rukmani Birla Hospital, Jaipur

- A **230 bed multi-speciality** Hospital in the heart of Jaipur
- **World-class infrastructure and equipment** – offering in-patient and out-patient services
- It is spread over 135 Acres which includes the Hospital and ample space for a Medical College and Nursing School

CK Birla Healthcare – Business verticals

Birla Fertility & IVF

Lucknow Centre, Waiting Area

Modular OT

IVF Lab

- Fastest growing chain of world-class clinics providing **comprehensive fertility solutions**
- State-of-the-art facilities providing **clinically reliable** treatment with the assurance of **honest pricing** and **empathetic care**
- Currently, we have 9 live centres in Gurugram, Delhi, Lucknow, Kolkata and Varanasi
- During the next 3-4 years, we plan to launch 75 centres across the country and are also looking at international expansion

Emerging Leader Programme (ELP) Overview

As a fast-growing company with ambitious plans, we are launching the **"Emerging Leader Programme"** to induct **high quality talent** in the company who will be the **future leaders of the company**

Overview

1. Onboarding through Rigorous Selection Process

- CV Shortlisting, based on academics, experience and participation in extra curricular activities
- Case Discussion/Group Discussion
- Behavioral Event Interviews

2. 1 year Traineeship Period

- Associates will work on 2 cross-functional strategic projects, which are of high-impact to the company
- For each project, they will work with a senior mentor in the company

3. Post Traineeship Period Deployment to a function

- Based on the interest of associate and company requirements, the trainee will get assigned to a specific role (e.g., in operations, business development, HR, etc)
- Job rotation opportunities will be provided to the talent to fast track their growth in the company
