Why CA?

Factors	Comments	Comments
Market Cycle	Client Associates (CA) has seen more than three business cycles in the last 20 years	Ability to manage portfolio in both bull and bear cycles
Business Model	CA doesn't manufacture its own products	Solving Agency Problem by representing clients in the eco-system
Investment Process	CA follows globally accepted investment process to manage client portfolios (IPS, CME, AA, TA, PC, PR)	Clearly defined risk profile, return profile and portfolio constraints help clients achieve their financial goals
Asset Allocation	Asset allocation remains the most important decision for client portfolios. CA follows its propriety grid assessment to give annual and monthly calls on markets.	Alpha for both fresh allocation and fully invested portfolios
Manager Selection	CA publishes actual return of its Equity Model Portfolio instead of historical returns of current portfolio. The portfolio has outperformed BSE 500 in 8 out of 10 years and has delivered an annualized alpha of about 3% over benchmark	Alpha over benchmark
