Project Manager

Dhwani Rural Information Systems

- Full Time - Gurugram
- Experience (3-5 Years)

About Dhwani:

Dhwani Rural Information Systems is a social/development sector-focused advisory and consulting firm that develops IT applications for NGOs, government functionaries, CSRs, and international funding organizations to manage their projects and programs in India and abroad. We are seeking a Project Manager to manage the delivery of multiple projects using our in-house IT platforms, mForm and mGrant, for CSR grant management and M&E requirements of clients.

Job Overview:

As a Project Manager at Dhwani Rural Information Systems, you will play a crucial role in managing the delivery of multiple projects using our in-house IT platforms, mForm and mGrant, for our clients in the social/development sector. You will act as a point of contact with our partner NGO, CSR, and government clients and the internal tech team at Dhwani, and be responsible for understanding client project details, giving software demos, requirement gathering for digitization, software feature development discussions, preparation of M&E framework/log framework, digitization of the M&E framework on the platform, dashboard indicator and reporting framework design, data clean-up and upload process, training manual and training, testing, and other evolving roles.

In this role, you will have the opportunity to use your skills and passion for leveraging data and technology for social good to make a meaningful impact in the lives of people and communities. You will work with a team of experienced professionals and have the opportunity to learn and grow in your career.

Key Responsibilities:

- Understanding client project details and giving software demos
- Requirement gathering for digitization and software feature development discussions
- Preparation of M&E framework/Log framework and digitization of the M&E framework on the platform
- Dashboard indicator and reporting framework design
- Data clean-ups & upload process
- Training manual and training

Essential Technical Requirements:

- Experience in survey or MIS design/overseeing survey implementation/managing survey teams for Baseline-Midline assessments, M&E projects, etc.
- Strong research skills (qualitative and quantitative, impact assessments, report writing, log frame design)
- Experience on working with data in excel for data storage, data cleaning, data analysis
- Experience of using BI tools like Google Studio, Power BI, Tableau etc
- Exposure to different off-the-shelf survey solutions (Google Forms, Survey Monkey, Surveyor, etc.)
- Experience in working on multiple projects in a fast-paced work environment
- Proven track record of delivering projects on time and within budget
- Experience with project management tools and techniques, including project planning, resource allocation, risk management, and stakeholder communication
- Ability to work with cross-functional teams and manage external vendors and partners
- Strong communication and interpersonal skills, with the ability to build and maintain relationships with clients and team members

Essential Non-Technical Requirements:

- Strong analytical and problem-solving skills
- Ability to think strategically and identify opportunities for process improvements
- Excellent organizational and leadership abilities
- High level of motivation and dedication to delivering high-quality work
- Commitment to continuous learning and professional development

Education:

- MBA or Master's degree in a relevant field such as Rural Management, Public Policy, Economics, Social Studies, or Development Studies
- Preference given to candidates with a degree from a reputable institution such as IRMA, APU, IIFM, XIMB, TISS, IIHMR or fellowship from YIF, Anubhav Lecture Series, India Fellow, Indian School of Public Policy, Gandhi, Teach for India, Genpact Fellowship
- Experience:
- Minimum 3-5 years of experience as a Project Manager in a social/development sector-focused organization such as an NGO, social impact consulting firm, CSR, think tank, or research organization
- Experience working with IT platforms and software solutions is a plus
