- Expertise in standard UX software such as Sketch, OmniGraffle, Axure, InVision, UXPin, Balsamiq, Framer, and the like is a must. Basic HTML5, CSS3, and JavaScript skills are a plus.
- Ability to work with clients to understand detailed requirements and design complete user experiences that meet client needs and vision.
- Extensive experience in using UX design best practices to design solutions, and a deep understanding of mobile-first and responsive design.
- A solid grasp of user-centered design (UCD), planning and conducting user research, user testing, A/B testing, rapid prototyping, heuristic analysis, usability and accessibility concerns.
- Ability to iterate designs and solutions efficiently and intelligently.
- Ability to clearly and effectively communicate design processes, ideas, and solutions to teams and clients.
- A clear understanding of the importance of user-centered design and design thinking.
- Ability to work effectively in a team setting including synthesizing abstract ideas into concrete design implications.
- Be excited about collaborating and communicating closely with teams and other stakeholders via a distributed model, to regularly deliver design solutions for approval.
- Be passionate about resolving user pain points through great design.
- Be open to receiving feedback and constructive criticism.
- Be passionate about all things UX and other areas of design and innovation. Research and showcase knowledge in the industry's latest trends and technologies.

Role and Responsibilities

- Translate concepts into user flows, wireframes, mockups and prototypes that lead to intuitive user experiences.
- Facilitate the client's product vision by researching, conceiving, sketching, prototyping and user-testing experiences for digital products.
- Design and deliver wireframes, user stories, user journeys, and mockups optimized for a wide range of devices and interfaces.
- Identify design problems and devise elegant solutions.

- Make strategic design and user-experience decisions related to core, and new, functions and features.
- Take a user-centered design approach and rapidly test and iterate your designs.
- Collaborate with other team members and stakeholders.
- Ask smart questions, take risks and champion new ideas.
