futureworks
consulting

ABOUT THE COMPANY

Founded in 2009, Futureworks is recognized for being a pioneer in the field of admissions consulting. We have worked with 10,000+ students to counsel them to get into the most competitive universities abroad – both in one-on-one and workshop formats. Our students have achieved tremendous results with 500+ offers to Ivy's, 2500+ offers to top 30 US Universities, 300+ offers top 5 UK Universities and $15 M in scholarships. 98% of our applicants get invited to Oxbridge for interview and 95% of students invited to Oxbridge for interview get admitted. We work with students across India, U.S, U.K. France, Singapore, Thailand, Sri Lanka, Nepal, Kenya, Nigeria and Dubai.

We believe in a holistic process in which we first help students to discover and explore their interests, translate them into meaningful academic, career and personal goals. Then, we develop a detailed plan to build a strong set of academic and extracurricular achievements, a unique positioning and narrative Focused on building students' skills – in reasoning and logical thinking, research, writing, speaking and networking – we help them in the application process, in college and much beyond.

Passionate about building skills, we have been involved in developing and leading training programs since 2000, designing a 4 credit college course for IES Abroad that runs the programming for the top 200 US universities whose students study abroad in India and piloting a high school program on Entrepreneurship with Columbia Business School which is now offered globally.

Futureworks' unique approach is driven by our founder's extensive US corporate experience. Kavita Singh has worked for leading companies such as Mars, Colgate-Palmolive and WebMD in the US. At Mars Inc. and Colgate Palmolive she not only led the launch of new products but also drove the redesign of innovation processes to drive breakthrough innovation. As Executive Director at WebMD she was instrumental in redefining the strategy for the wellness segment, growing her business line 4x and launching several innovative new products. Kavita holds a Bachelor of Arts degree (Hons) in Politics, Philosophy and Economics from the University of Oxford and an MBA degree from Columbia Business School with concentrations in Finance, Management and Marketing.
