Job Description - Program Lead

About GDi

GDi is an impact-driven start-up committed to transforming the lives of individuals and communities for an equitable and inclusive world. We work in partnership with governments and impact-oriented organizations to design and execute large-scale development programs in domains like education, agriculture, environment, skill development, digital service delivery, and health. In just 2.5 years since our inception, we've grown to become a strong 40+ member team working across 12 projects with 8 state governments and 2 central government ministries, as well as several strategy projects with large NGOs and philanthropies.

Job Summary

We are looking for passionate individuals with a high degree of ownership in their work, a knack for identifying relevant problems, strategizing solutions, and supporting implementation in collaboration with government departments and impact-oriented organizations. In this client-facing role, on an everyday basis, you get to interact with senior leadership across political, bureaucratic, and philanthropic sectors, honing your leadership skills and expanding your professional network. Join us as a Program Lead and lead a team of 3-5 consultants driving social transformation across domains.

Typical Work Day in the Life of a GDi Program Lead

As a Program Lead, you will typically lead a team of 3-5 consultants and play an active role in all aspects of outcomes delivery and client engagement. Typically, you will work on

1. **Diagnosing complex challenges** by breaking down the problem statement and analysing data sets to identify gaps and design effective solutions.
2. **Brainstorming with your team and partners** to problem-solve, plan, and decide on the deliverables and next steps.
3. **Participating in field visits** and interacting with partners/beneficiaries to gain first-hand insights and understanding of their needs.
4. **Managing team and stakeholders** by attending meetings, discussing progress, and aligning program objectives and next steps with them.
5. **Engaging in organisation-building activities** and leading new initiatives within the organization.
6. **Supporting the implementation** of large-scale government initiatives impacting crores of lives

Required Competencies
