GLOBAL ALLIANCE FOR Mass Entrepreneurship

About GAME:

The Global Alliance for Mass Entrepreneurship (GAME) is an alliance of partners unleashing the job creation potential of every entrepreneur in India. Through action driven coalitions around key themes such as ease of doing 'small' business, access to finance, MSME acceleration and more, we hope to develop an ecosystem that encourages and enables entrepreneurship. The ambition of the Alliance is to create 10 million mass entrepreneurs by 2030 which intends to create 50 million jobs half of whom will be women. GAME operates through partner organisations, across policy, civil society, academia, and the private sector, who will generate fresh insights, opportunity zones, new ideas, innovative technologies, and scalable actions. We firmly believe that solving hard problems requires collective effort, and the Alliance will exist to guide and enable collective impact.
