ABOUT HRIM

Hrim (pronounced Hreem or ह्रीं) is an innovation firm which creates standout ideas and designs to inspire purpose – led action, through its social innovation service.

Ideation: Creativity is at the core of what we do. For us, it is the search for new and valuable insights.
Design: We take a broader view of design; we see design as the art of crafting ideas into reality.
Social: Social for us means acting with purpose. Each organization has potential to purposefully contribute to society, and we seek to unlock this potential.

Our clients include:

GMR Reliance Industries Limited DLF adani Foundation TATA STEEL FOUNDATION

HRIM EXPERIENCE FOR AN INNOVATION ASSOCIATE

Hrim is not an office, not even a company at the core of it. At its truest Hrim is an energy, an inspiration. An energy connected with positive action, ingenuity, and creativity. A positive force that aims to flow through organizations, people, and efforts. It aims to flow freely without dogma, ideology, and judgement but with direction and purpose. This energy forms the basis of the Hrim experience.

Responsibilities you will shoulder

In your experience at Hrim you will shoulder the following key responsibilities as you engage in social innovation projects and associated work:

Research

- Execute exploratory and creative research to understand new domains, new contexts, organizations, initiatives, business.
- Synthesize and analyze patterns and frameworks to understand the context of projects.
- Execute design research to create outstanding designs for innovation projects

Ideation

- Utilize frameworks, multiple perspectives, and domains to discover novel avenues and ideas for purposeful action.
- Discover and develop concepts and ideas in creative ways with an awareness of their nuance, potential and purpose.

Design

- Develop standout, detailed, and workable designs for projects utilizing the most appropriate mediums and frameworks.
- Create knowledge products in a variety of formats to communicate our idea concepts and designs.

Management

- Manage project timelines, tasks, deliverables, communication, team coordination etc.

Qualities you will seek to develop

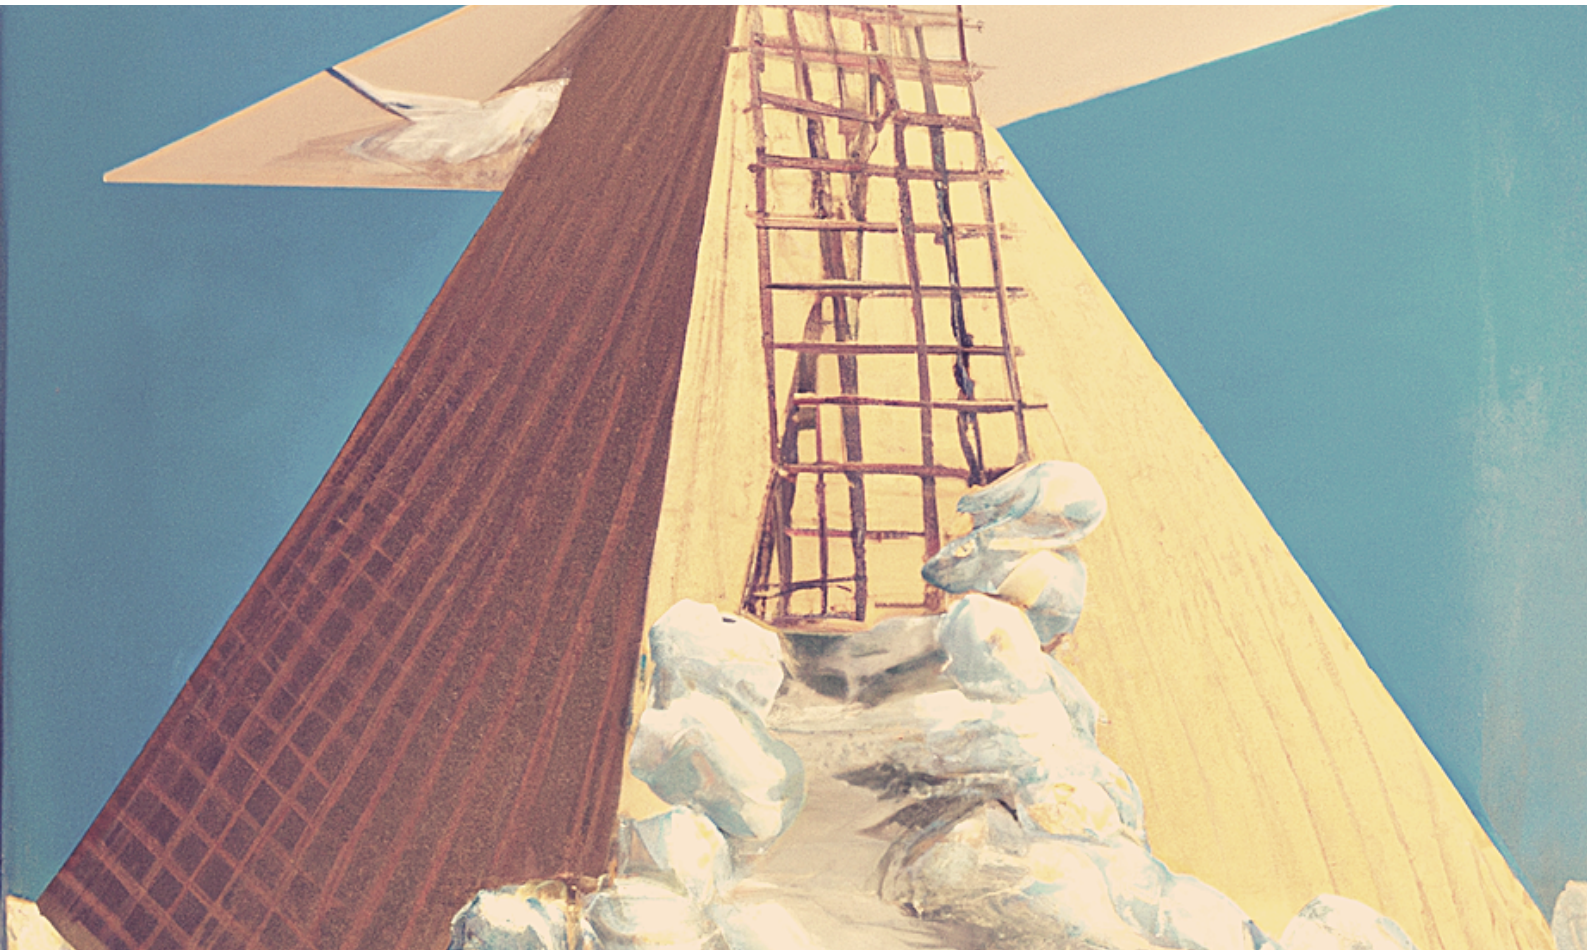

The Hrim experience centres around development of oneself. The Hrim experience will nurture the following qualities in you:

- Self-Awareness – The ability to clearly perceive one's own thoughts, feelings, actions, strengths, weaknesses, aspirations in context to the environment and its impact on others.
- Curiosity – The disposition towards inquisitive thinking, exploration, and learning.

- Cognitive Flexibility – The ability to use broad domains and cognitive styles to create associations and understanding for ideation beyond the apparent.
- Cognitive Persistence – The ability to pursue systematic in-depth exploration in a particular direction.
- Openness – High receptivity towards the value of new ideas and new experiences
- Self-Management – The ability to regulate one's own actions in a productive way to excel in professional responsibilities.
- Sincerity – The disposition to act in accordance with the entirety of one's feelings, beliefs, thoughts in a manner that is honest and genuine.
- Commitment – The state of being consistently dedicated to one's direction, tasks, and responsibilities.
- Pursuit of excellence – The disposition to strive to improve, grow and reach one's potential.

Learnings you will pursue

Learning is an essential component of the Hrim experience. Hrim takes an eclectic approach to learning by exploring multiple subjects like - physics, psychology, economics, literature, biology, business, systems, mathematics etc. Learning at Hrim bridges diverse disciplines with the aim to seek conceptual depth, imbibe knowledge and acquire new perspectives and styles of thinking. This type of learning broadens ones understanding, provides a wealth of lens to view the world and opens different dimensions of one's creative ability.
