You will be focusing on individual/ team objectives and involve yourself in the development of professional effectiveness. In the role, you will design applications, write codes, test, debug and maintain Software Applications across various platforms and technologies.

Key Competencies

We are looking for following skills from you:
Programming (preferably in Java, Python, Node.js) & Software Development Life Cycle Concepts

Work Location:

Mumbai, Pune, Delhi/ NCR, Gurgaon, Noida, Hyderabad, Chennai, Kolkata, Bangalore, Ahmedabad

Introduction

At IBM, work is more than a job - it's a calling: To build. To design. To code. To consult. To think along with clients and sell. To make markets. To invent. To collaborate. Not just to do something better, but to attempt things you've never thought possible. Are you ready to lead in this new era of technology and solve some of the world's most challenging problems? If so, lets talk.

Required Technical and Professional Expertise

- Defining, analyzing and reviewing technical architecture on required platform and coming up with architecture options and recommendations
- Demonstrating strong knowledge of enterprise issues related to IT architecture.
- Defining, detailing and scoping the technical requirements into solution architecture and ability to drive an independent project from an architectural stand point.
- Fluent interpersonal skill (written and spoken)

Preferred Technical and Professional Experience

- Design, develop and/or re-engineer application components, and integrate software packages, programs, and reusable objects residing on multiple platforms.
- The ability to support Technical Consultants and leads in building solutions and providing technical mentoring and guidance

Required Education

Bachelor's Degree

Eligibility Requirements

- This is an entry level On-Campus hiring position, and the candidates must be in their final year of education and must obtain their degree before the start of employment with IBM
- BE/ MTech/ MSc/ MCA in CS/ IT/ Mathematics OR other Semi IT/ circuit branches with 6 CGPA. 58% or 5.8 CGPA in case of Maharashtra
- Calculation of qualifying marks =Sum of marks obtained divided by Sum total of maximum marks obtainable. All subjects will be considered including elective/optional subjects

About Business Unit

IBM is a 110-year-old company with a young heart. We strive to reinvent ourselves and the world. Our employees inspire to change the world through technology. At IBM India, we provide solutions and services to all major industries including financial services, healthcare, Government, automotive, telecommunications and education. As a trusted partner with wide-ranging service capabilities, we help our partners transform and succeed with meaningful circumstances. The diversity and breadth of the entire IBM portfolio of research, consulting, solutions, services, systems and software, distinguishes IBM India from other companies in the industry.

IBM Global Business Services (GBS) is the division of IBM that is focused on business process consulting and technology application. At GBS, we provide end-to-end solution to our clients. We pride at providing complex integration and business transformation solutions to our partners.

IBM GBS in India, also known as GBS - Global Delivery caters to clients worldwide. Our portfolio includes services on Digital Transformation (e.g., Strategy, Interactive Experience, Analytic and Big Data), Application Innovation Consulting and Enterprise Applicants (e.g., SAP, Oracle, Microsoft, and Workday).

Your Life @ IBM

Are you craving to learn more? Prepared to solve some of the world's most unique challenges? And ready to shape the future for millions of people? If so, then it's time to join us, express your individuality, unleash your curiosity and discover new possibilities.
Every IBMer, and potential ones like yourself, has a voice, carves their own path, and uses their expertise to help co-create and add to our story. Together, we have the power to make meaningful change – to alter the fabric of our clients, of society and IBM itself, to create a truly positive impact and make the world work better for everyone.
It's time to define your career.

About IBM

IBM's greatest invention is the IBMer. We believe that through the application of intelligence, reason and science, we can improve business, society and the human condition, bringing the power of an open hybrid cloud and AI strategy to life for our clients and partners around the world.

Restlessly reinventing since 1911, we are not only one of the largest corporate organizations in the world, we're also one of the biggest technology and consulting employers, with many of the Fortune 50 companies relying on the IBM Cloud to run their business.

At IBM, we pride ourselves on being an early adopter of artificial intelligence, quantum computing and blockchain. Now it's time for you to join us on our journey to being a responsible technology innovator and a force for good in the world.

Location Statement

When applying to jobs of your interest, we recommend that you do so for those that match your experience and expertise. Our recruiters advise that you apply to not more than 3 roles in a year for the best candidate experience.
For additional information about location requirements, please discuss with the recruiter following submission of your application.

Being You @ IBM

IBM is committed to creating a diverse environment and is proud to be an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, gender, gender identity or expression, sexual orientation, national origin, genetics, pregnancy, disability, age, veteran status, or other characteristics. IBM is also committed to compliance with all fair employment practices regarding citizenship and immigration status.
