# IMAGE FOUNDRY

## JOB SPECIFICATION - PROJECT MANAGER

**About the company**

We are a global CGI studio & Visual marketing focused on bringing our clients vision tomorrow, today. We are a small team of driven individuals, who envision, strategise and create realistic graphic imagery that help our clients market and grow their products.

**Job Description**

We are looking for a Project Manager to manage and organise key projects and liaise with all involved stakeholders. It is a full time position based out of our office in Delhi. Major responsibilities would include liaison with our UK team, managing and allocating resources ably.

The role demands high focus, a keen eye for detail, critical thinking and crisis management. As the project manager, you will be responsible for coordination and allocation of both internal and external stakeholders and resources to ensure that all projects are delivered on time and produce the desired results. We are a company with a small team, which requires cross-vertical malleability and ability to function under pressure. A strong willingness to learn and gain technical and business insight is crucial.

**Responsibilities**

- Coordinate with UK team and internal resources
- Ensure that all projects are delivered on-time, within scope and within budget
- Developing project scopes with relevant stakeholders ensuring technical & schedule feasibility
- Manage resource availability and allocation efficiently
- Verify and implement changes in project scope, schedule and costs effectively
- Measure & generate project performance reviews using timesheets and project reports.
- Crisis management & escalation of resource and project issues as and when required
- Manage the relationship with the client and all stakeholders
- Perform risk management to minimise project risks
- Establish and maintain relationships with third parties & service providers
- Create and maintain comprehensive project documentation
- Basic knowledge of operations

**Requirements**

- Comprehension of project management techniques and PMS (Project Management Software)
- Drive to work under pressure and in a fast paced environment
- Solid acumen to grasp technical aspects of design, creative processes and softwares
- Excellent client-facing and internal communication skills
- Excellent written and verbal communication skills
- Solid organisational skills including attention to detail and multi-tasking skills
- Understanding of design software (Photoshop, Illustrator, 3Ds Max, etc) is a plus
