Company :	Indus Insights And Analytical Services Pvt. Ltd.
Company Name :	Indus Insights And Analytical Services Pvt. Ltd.
Nature Of Business :	Consulting / Data Science
Designation :	Associate
Tentative Job Loaation :	Gurugram / Bengaluru

Description :

Indus Insights is looking for top-notch professionals to drive consulting and data sciences assignments of the firm. This is a phenomenal opportunity to work on some of the most exciting problems in fintech, banking & other industries while using Analytics & Big Data. These roles offer great exposure to top-tier clients across the globe, including in the US, UK, Australia, Singapore, and India. If you like the overlap of business, math, and technology, and enjoy working in a fast-paced environment, this role is tailor-made for you.

Indus is looking to fill positions at the Associate Tier. The specific role requirements will include the following:

1. Drive analytics projects for our clients

- *Work with your manager to give an analytical structure to seemingly vague business problems*
- *Develop a problem-solving approach; Participate in brainstorming sessions with the team*
- *Manipulate datasets from a variety of sources; Merge datasets, perform data hygiene, and create analysis/ modeling conducive datasets; Be the subject-matter expert on client data and trends*
- *Use regression and machine learning techniques to create predictive algorithms; Evaluate the performance of algorithms, validate these, and perform statistical tests*
- *Develop economic valuation models, perform validation, and design business strategies using such models*
- *Develop business recommendations using predictive/ econometric models, perform impact sizing, stress testing, and create business cases and presentations to be shared with CXOs*

2. Client and Project Management

- *Work with client maps to understand the business context and data trends; Partner with them to address data issues and ensure consistency between data trends and actual business performance*
- *Present findings, updates, and recommendations to clients on a periodic basis*
- *Ensure smooth delivery of the project, provide periodic updates to Indus leadership & to clients, highlight roadblocks, etc*

3. Other Activities

- *Be involved in hiring activities of Indus*
- *Lead internal workstreams, such as internal R&D projects, business development assistance, lead new joining training sessions, etc.*
