Campus Recruitment Information 2022-23

About Intueri:

Intueri (Website, LinkedIn), founded in 2017, positions itself as a full-spectrum strategy consulting firm that specializes in research and deep client engagement-based consulting approach to find pragmatic solutions to issues that concern senior management. We also create awareness of trends in the offing that can affect our clients' businesses. Our deep engagements with clients enable us to understand their businesses, related issues, and concerns. We systematically curate a solution to the problems identified, aided by the following contributors:

- Our Expert consultants and advisors spread globally and locally, who have diverse domain expertise and experience
- Our alliances and information repositories
- Our alliances with many leaders in the respective fields
- A robust Framework to bind all our contributors

We help clients achieve a breakthrough value by developing integrated strategies to win in chosen markets and by curating data-driven programs that transform their business. We also help multilateral funding agencies in preparing proposals and plans for funded projects through deep research on a domain-specific policy and vision.

Intueri was founded by Mr. Ambarish Dasgupta, who has over 35 years of experience as a management consultant. He was a Partner and a National Leader of Consulting at KPMG and PwC and handled a practice of 2000 people in Digital and Analytics with USD 60 million in revenue. He is also a member of the State Public Policy and Strategy Planning Board for the Govt. of West Bengal. He serves as a Principal Advisor to the Department of IT and Technology for the state of West Bengal.

The Team

Our Research/GEM (Global Economic Multi-Developments) Team, facilities a diverse range of research models that enables us to propose innovative and implementable solutions that cater to our client's business needs. The team is involved in rigorous research in Macroeconomics, Data Analysis and Econometric Modelling, Market Assessments, Trade Facilitation, Commodity Mapping, Value Chain Assessments, Public and Social Sector Developments, and Investment Strategies. Further, the GEM

Team, works with policy/governance bodies and funding agencies based on deep economic and policy research, keeping global concerns and priorities in mind.

Our Strategy Team's practices bring together several key capabilities that allow us to architect integrated programs that transform our clients' businesses, including Corporate Business Strategies, Growth Strategies, International Expansion Strategies, Operations and Supply Chain Optimization Processes, and Organizational Strategies, Digital Strategies, and M&A Strategies.

Our Strategy professionals will serve as trusted advisors to our clients, working with them to make clear data-driven choices about where to play and how to win, how to drive growth and enterprise value.
