JD for Program Manager for Scaled Impact at
Involve Learning Solutions Foundation

Involve was founded by IIT Graduates, Divanshu & Samyak, who left their placements to build their dream. Through Involve, we are re-imagining education by building agency in school students, targeting 1 million students in the next 5 years. We do that by leveraging a peer learning-teaching-based approach. The approach emanates from our belief in "Kids first" and our key design principles: Co-created with students, Led by the students & participation by choice.
So far, we have directly worked with 10500+ students across India, improving their learning outcomes (39% from the baseline to Endline, maths) and the sense of ownership & leadership with our programs. Our core program of Peer Teaching has students in their formative years of age of 12-16 teacher and mentor their juniors in public schools. We have also seen great improvement in the school's learning culture, teenage behavior, etc. We are backed by some prominent institutions like the Central Square Foundation, Nudge foundation for social entrepreneurship, Wells Fargo, TFIx to name a few.
We are a stellar team from diverse backgrounds and skills, supported by experienced advisors to provide choice, ownership and skills to our students—more about us at Deccan Herald, Logical Indian, YourStory & TBI.
We are looking for someone with a track record of leading a successful project or team delivering programs (working with teachers/CRPs and other govt stakeholders would be a plus). Someone who leads by example and effortlessly collaborates with people cross organisations; Also, you should have strong work Ethics & alignment with our values & hunger to solve problems!
Vision: Developing agency in students
Mission: To create an ecosystem of support for students through peer based learning

This, right here, is our awesome Team who is #involved!

Overview of the Role:
You will manage end-to-end implementation of our Program towards Student Agency in the district, starting with implementing the Peer based program in a block through working with Block Academic Coordinator (BAC), Cluster Academic Coordinator (CAC) & teachers to ensure successful program outcomes for all the students. You will be a part of the team which lays the foundation for the scale of Involve. This will include the following:
1. Implementation

● Creating an action plan to implement out Peer based program via BACs and CACs
● Training & coordinating with BACs, CACs & teachers for respective schools to ensure successful implementation
● Setting up robust processes that enable smooth onboarding & daily management of students for the program by the teachers
● Understandign existing structures for different aspect of the program for ease of implementation
● Training of BACs/CACs on different aspect of Student Leadership and Student Agency
● Regular interaction with all the stakeholders, visiting schools regularly to ensure the quality of the program on ground and understanding the implementation gaps
● Identifying the needs on the ground and designing/creating programs aligning to Involve's vision with the support of Program Design team
2. Manage relationships:
● Fostering positive relationships with State officials, district officials, other stakeholders to get buy-in on the vision to build a strong idea of Student Leadership and agency in them for sustainable effort
● Engaging DC, DIET, and other govt. Officials by regularly reporting, initiating formal/informal conversations and co-creating action plans with them.
● Identifying and forging partnerships with other CSOs aimed at addressing pressing needs at the school site
● Manage a team of 3-5 to run the district program
● Define KRA/KPI for individual team members and lead them to success in performance
● Aligning to the values of involve, creating a fantastic culture for the team
3. Documenting and reporting
● Leading efforts to document and report progress & program gaps/challenges every month
● Adapting tools or surveys to evaluate, collect data and document stakeholder (BACs, CACs, teachers, students) response to intervention
● Analysing feedback from BACs, Teachers and CACs to improve the effectiveness of program and implementation continually
● Creating monthly report for funders (some part of the report) and govt stakeholders

Why you should join us:
1) The 15% at Involve
15% of your work-time (~1 hr/day) at Involve will be allotted for collaborative learning in the initial months. This will later evolve into an opportunity, as an individual, to investigate a new idea -
to innovate, to create. There are primary focus areas you could explore that can directly contribute
to the project:
● Personal Development and Entrepreneurial Thinking
● Student leadership & future-ready skills
● Engaging Teachers to create more opportunities for student-driven learning.
This will help identify your area of interest and explore learning opportunities, something that will contribute towards your self-development and career growth in the long run.

2) Non-linear growth
3) High Impact work; Strong ownership for your work and No hierarchy!
4) Young and Amazing Team (IIT, NIT, Azim Premji University, Teach for India): Read here- IIT Grad
Gives Up Rs 21 Lakh/Year Job, Starts Initiative That Could Revolutionise India's Education
5) We are fun. Like crazy fun! & we love memes! Ask anyone around :)
6) We are crazy about Food, so you get brownie points for being a foodie!

People we are looking for
We always hire for attitude first, smarts next and then your skills. We are looking for individuals who align with our Vision & Values and who have what it takes to solve the most complex of problems to build the next big education organisation!
We promise to give you a steep growth and a great learning culture that we have built here (Read
about one such experience here).

You should have the following:
● Experience: 3-5 years of experience in the education sector & managing a team
● Education: An undergraduate degree in any stream is a must; a master's degree is a plus
● Skills: Should be a good planner and a go-getter; Should be good with on-ground work; okay to commute long distances on certain days; be patient with the outcomes; getting things done by leveraging relationships; Clear understanding of thoughts while making any decision and excellent communication skills; Ability to manage and inspire people
● Should have a strong sense of data collection, data analysis, knowledge of statistics and be able to set structures for operational data
● Strong work Ethics: Punctuality, Sense of environment, self-driven;
● Interests: Passionate about education; enjoys mentoring and working with school kids.
Location: Chhatarpur (Madhya Pradesh) (Should be fluent in Hindi, both verbal and reading)
Compensation: INR 5 - 6 LPA CTC (Negotiable based on experience & fit)

Also, you should have strong work Ethics & alignment with our values & hunger to solve problems!
Vision: Developing agency in students
Mission: To create an ecosystem of support for students through peer based learning

This, right here, is our awesome Team who is #involved!

Overview of the Program:
Maargadarshi : Involving students in the process of learning through peer based interventions . The program includes facilitating peer based spaces to provide a safe space for student voice in their learning process. This includes:
● Learning the concept of foundation math through peer teaching for students in lower primary grades with CPA approach. (4th and 5th students teaches their junior grades)
● Learning grade specific math content in peer groups. The students explore different concepts through activities making it easier to understand these topics in their regular classrooms. (Covering grades 6th,7th and 8th)
Overview of the Role:
The person will be responsible to manage the end-to-end implementation of our Maargadarshi Program in 12-15 schools, through managing full time associates (community champions), to ensure successful program outcomes for all the students. This will include:
1. Implementation (65% of your Ops role)
● Create an action plan to implement the Maargadarshi program with Schools
● Coaching & coordination with associates for respective schools to ensure our program is implemented well
● Set up strong processes that enable smooth onboarding of school
2. Manage relationships (25% of your Ops role)
● Foster positive relationships with associates, teachers, school staff and other stakeholders to get buy-in on change efforts required at the school level
● Engaging external partnerships with organizations/people aimed at addressing pressing needs at the school site
● Engage corporate volunteers via activities for effective CSR management
3. Documenting and reporting (10% of your Ops role)
● Lead efforts to document and report progress & program gaps/challenges on a monthly basis
● Adapt tools or surveys to evaluate, collect data and document stakeholders (parents, teachers, students) responses to intervention
● Analyze feedback from students, and teachers to continually improve the effectiveness of the program and implementation
Why you should join us!
1) Impactful work with steep growth: The work that we do, directly nudges the lives of students, hands down. We improve the way students think about learning.

2) Strong Peer group: Young and Amazing Team who operate from the value of trust and ownership. Say hi to any of us (Asha, Ashwini, Divanshu, Malavika, Pratibha, Samyak, Divya, Anna, Kishor, Shamala, Anjali, Dr. Asha.H.B).
3) We are fun & We are crazy about Food. We love memes and prioritize happiness over anything.
That is one of our core values
Let me tell you a secret: You get extra points for being a foodie! :)

People we are looking for :
We always hire for attitude first, smarts next and then your skills. We are looking for individuals who align with our Vision & Values and who have what it takes to solve the most complex of problems, to build the next big education organization!
What we promise to give you is a steep growth and a great learning culture that we have built here.
You should have:
● Experience: 1-2 years of experience in the education sector,
● Education: An undergraduate degree in any stream is a must; a master's degree is a plus
● Skills: Should be a good planner and a go-getter; Should be able to manage on-ground operations; okay to commute long distances on certain days; be patient with the outcomes; getting things done by leveraging relationships; clarity in their thought process and great communication skills; Ability to manage and inspire people
● Should have a strong sense of data collection, data analysis, knowledge of statistics and be able to set structures for operational data
● Strong work Ethics: Punctuality, Sense of environment, self-driven;
● Interests: Passionate about education; enjoys mentoring and coaching people
