JOMBAY

JOB DESCRIPTION
Title: Associate Consultant - Assessments Practice

Key Expectations:

Meet clients to identify their talent needs, and design solutions and assessment content for assessment centers and development journeys in partnership with the centralized delivery team.

Responsibilities:

1. Understanding the client's objectives and needs to develop solutions/assessment content as per clients' requirements.
2. Consult clients on their talent management challenges.
3. Designing solutions, such as solution decks, pitches, approach notes, etc.
4. Designing custom assessment content such as case studies, role plays, psychometric tests, etc.
5. Work in collaboration with internal teams to represent Jombay to clients.
6. Contributing to research and development of new products and features from time to time.

Expected Behavioral Competencies:

- Attention to detail
- Speed and Agility
- Ownership and responsibility for actions and decisions
- Quality focus
- Commitment to deadlines

Additional Skills:

Well-versed with:

- G Suite (Google Docs, Sheets & Slides)
- MS Office (Excel, Word & Powerpoint)

Experience & Educational Background:

- Master's in Psychology (Industrial/Organizational Psychology preferred)
- 0-2 years of experience in the same or related field

Location: Remote
