Ashoka University Recruitment Policy (2022 - 2023)

Our mission: The Career Development Office at Ashoka University works actively with the Placement Committee to ensure that the students looking for career options have access to appropriate opportunities to set them off on a sustainable career path.

The CDO organizes mentoring, career guidance, and skill-building sessions that are aimed at enhancing the career-readiness of interested candidates before they partake in the placement process, and later, step into organizations. The workshops and sessions by the CDO that deal with case studies, resume building, communication skills, interviewing, group discussion and so on prepare students to articulate their skills confidently and portray their best self during the recruitment process. Additionally, CDO assists candidates in their job search strategy and organizes numerous campus engagement opportunities with senior executives from non-profits, startups, corporates and think-tanks. The goal of these engagements is to expose students to various career options and help them make an informed choice about their next career move.

This year, the placement season is likely to be divided into the following four phases:

In order to help students in the best way possible, the CDO has laid down a code of conduct that must be followed by students in **all** phases of the recruitment process.

Important Note- Enrolment in the placement cycle on Superset means you have agreed to and signed this Placement Policy document.

1. Pre-placement Talks (PPT)

A pre-placement talk is conducted by the company participating in the placement process. It generally includes a detailed presentation that provides applicants with an overview about the company, its policies, hierarchy, recruitment process, career growth, job location, positions and salaries offered. This is a two-way discussion, where students are encouraged to clarify their doubts or discuss anything related to the company or the profile. Attending the PPT is mandatory for applying to any company through Ashoka.

As aforementioned, the placement season consists of four phases. Each student sitting for placements is required to attend at least six pre-placement talks in the second and third phases.

The following guidelines must be diligently followed by all students taking part in the placement process:

Resume	All resumes that are submitted for applications must be strictly ***one*** page Ashoka resume format**.**
Attire	Students must wear business ***formals*** only.
Attendance	You need to attend for at least ***80%*** of the entire duration of the workshop/ discussions / PPT etc. in order to be marked present.
Conduct	**Camera Policy**: For virtual events, it is required for all students to keep their camera on. In case of technical bandwidth issues, you are requested to inform the members of the CDO prior to the event. **Q & As** :All queries/comments during the PPTs must be strictly professional and respectful.
Non-Attendance	It is ***mandatory*** to attend the PPT of the company you are applying to, non-attendance may lead to being blacklisted for a period of time[1] from the placement cycle. If applications for a company open *after* the PPT, only students who have attended

[1] The Placement Jury decides on all disputes on a case-by-case basis.

	the PPT will be eligible to apply.

2. Applying to Jobs/CV Submissions

- Before applying, kindly ensure that your resume is properly edited (no blanks headers for empty section, and **strictly limited to 1 page**), otherwise your application will be removed from the applicant list.
- Ensure that you have carefully read the entirety of the job description and other details shared via Superset, email or during PPT regarding the job application. Mandatory requirements for successful completion of applications, may be communicated via any of these channels. If they are missed, your application would be removed from the applicant list.
- In case of any doubts, please direct all queries to the Placement Committee **POC for the company** before applying, to avoid any misinterpretations.
- All applications have to be promptly shared with recruiters, so any request for deadline extensions will not be entertained. Some applications might be more detailed, so you are requested to plan and apply accordingly.

3. Withdrawal

No application may be withdrawn after the deadline for submission passes. Withdrawal of application from Superset will be permitted only in the following timeline:

- For companies that conduct a PPT after closing of applications, students can withdraw their application until 30 minutes after the PPT has been delivered. If the PPT is for the shortlisted candidates only, they may not be allowed to withdraw their application.

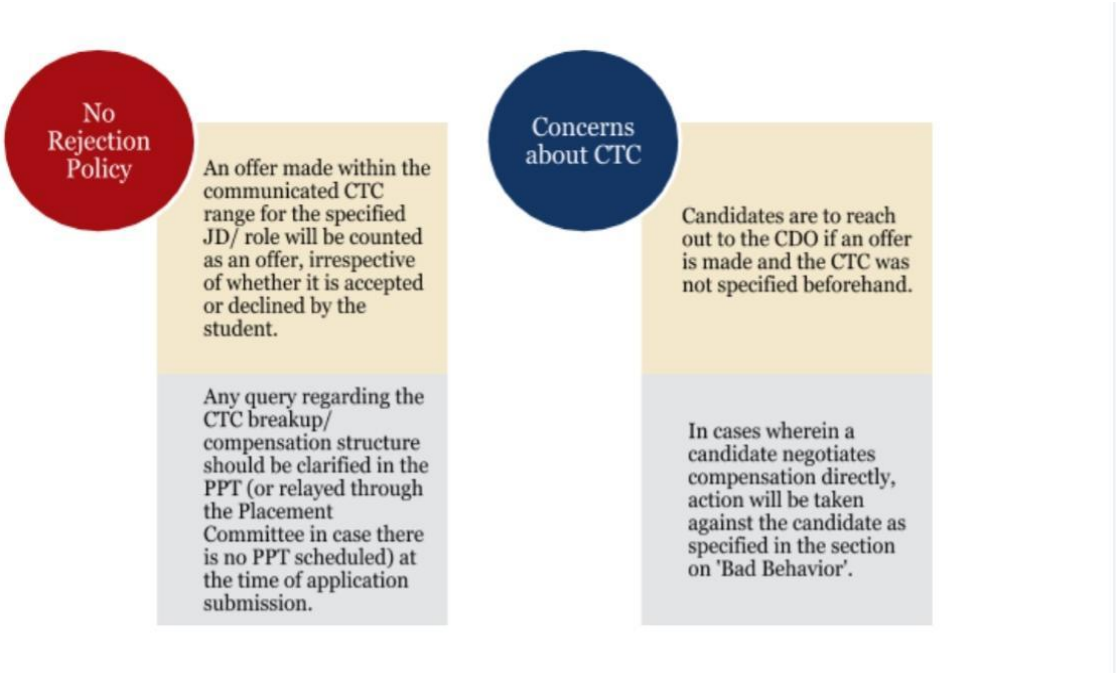

Note: If you decide to withdraw from the placement process, you must contact the Placement Committee POC for the company, and, if required, the CDO if you decide to withdraw after closing of applications. Greater delays in such communication may invite more severe penalties.

4. Interview

1. **Non Attendance**: If the student qualifies through to the interview round and does not attend it, it will lead to them being blacklisted until the Placement Committee has taken a decision on the matter.

2. **Late Arrival:** treated as non-attendance. Students are **expected to be prepared at least 15 minutes before their scheduled interview slot**.
3. **Deliberate poor performance**: feedback on candidate performance is collected from recruiters, so students are expected to have prepared for the interview beforehand. Deliberate underperformance will lead to action being taken upon the applicant as per the jury's penalty matrix.
4. **Unprofessional Behaviour**[2] directly leads to blacklist as per the jury's penalty matrix.
5. **Dress Code:** As reiterated above, students must strictly wear business formals ***only,*** even during PPTs.

5. Final Offer and Negotiation

[2] Unprofessional behavior is defined as mistreatment of recruiters, using abusive language, being rude, improper attire and conduct. This is a non-exhaustive list and disputes will be taken up on a case by case basis by the Placement Jury.

6. Category 1 and Category 2 Companies

Category 1 Company: A company is said to be category 1 if it meets any 1 of the following criteria:

1. Company features in Fortune Global 500 or Fortune India 100 or GPTW 100 or Fortune GPTW 100 or GPTW Global 25 list
2. Company Is a Unicorn or features in Sector Wise top 10 list
3. Offers CTC more than Median of the sector in the previous cycle
4. Companies that in alliance with the CDO

If a candidate gets a placement/internship offer from a Category 1 company, they are out of the placement process, and will not be allowed to apply to any other firms once the final offer over a mail has been made and communicated to the student.

Category 2 Companies: Companies are qualified as Category 2 companies when they do not meet the characteristics of a Category 1 company.

If a candidate gets a placement/internship offer (communicated to them through the CDO or PlaceCom) from a Category 2 company, they are eligible for 3 more attempts[3]. However, **the candidate must write a 200-word cover note on why they want to apply to other companies/continue the process for a certain other company[4]. They must strictly iterate that you rescind the offer before going ahead with other applications.**

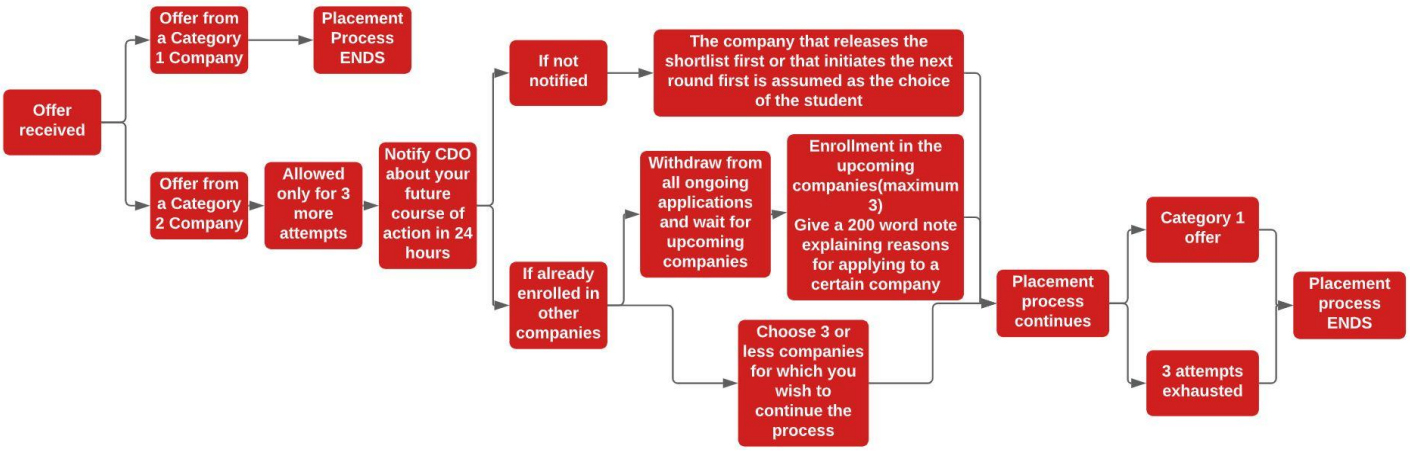

If they have any ongoing applications, they are required to choose 3 or fewer companies for which they would like to continue the process. This decision has to be communicated to the CDO and Placement Committee within 24 hours of the Category 2 offer. If they fail to do so, then whichever other company(s) that the person has applied to release(s) their shortlist or initiates the next round of the process FIRST will be considered the candidate's default choice.

Note: If the student has not received any job offer, they are free to apply to as many openings as they wish to. Only when an offer from a Category 2 company is received and declined, does the candidate get only 3 additional attempts.

---

[3] Here, the attempt indicates that, after receiving a Category 2 offer, the student is allowed to apply for only 3 more openings. These 3 attempts are inclusive of ongoing application(s) if the student chooses to continue any of the ongoing processes. If the student continues with less than 3 ongoing processes, they can utilise remaining attempt(s) to apply for roles in the remainder of the placement cycle.

[4] Within 24 hours of initial communication; or as decided by the PlaceComm PoC for that company.

A simple example:

i) No other ongoing applications: Suppose a candidate applies to an organization named "A", a category 2 company. They get an offer from A, but want to try for other companies. They write a note explaining this decision within 24 hours of receiving the offer form A, after which they can attempt applying to three more companies.

ii) Other ongoing applications: Suppose a candidate applies to A, B, C and D, E which are all category 2 companies. They get an offer from A, but want to continue the process for B, C and D. They write the note explaining their decision. They then choose which applications remain- suppose they decide they will keep B, C, and D. They shall inform the Placement Committee of this decision within 24 hours of receiving the offer from A, including the note.

If the applicant does not inform us within the stipulated time, and suppose company E releases their shortlist first, it is assumed that the student will go forward with company E.

If a student decides to withdraw from all ongoing applications (*given they do it following the rules of withdrawal)* they will be given the opportunity to apply for 3 more companies, irrespective of the category of the company.

However, the following holds true for all cases: A student will have to mandatorily rescind the former Category 2 offer in case of a successful conversion to Category 1 Company. CDO will inform the organization accordingly[5].

[5] This may be contested, if the student wishes. The dispute will be taken up by the Placement Jury.

Note: The CDO qualifies companies as Category 1 or Category 2 in the communication sent out to call for applications by the Placement Committee.

In case of Pre- Placement Offer:

A PPO, will be considered as a job offer through campus placements:

Accepting a PPO is indicative of the student being considered as placed in the Placement Cycle, and as per Category 1 Placement Policy, will not be able to continue further with Placement processes.

Declining a PPO would be considered on a case by case basis, where the reasons would be carefully evaluated by the Placement Committee/CDO before reaching a decision.

7. General Rules

Job Applications: A student who is still in the placement process is allowed to apply for all the jobs that come on campus - both social and corporate. Unless the job profile posted on Superset states otherwise (according to the recruiter's preference)

Students are encouraged to seek guidance from the CDO and access the placement preparation resources/workshops being offered by the CDO and Placement Committee.

Communication with Recruiters: All questions to recruiters outside of the PPT must be **routed through the Placement Committee**. Direct communication with recruiters should be done only after written approval from the Placement Committee.

If the recruiter gives negative feedback about being contacted by the candidates at any other stage, all candidates reported by the recruiter will be blacklisted for a time-period from the placement process until further decision is taken by the Jury.

Note: Placement Committee will arbitrate all the discipline related cases every month.

8. Miscellaneous Rules

The CDO shall always be kept in the loop in all official communication with the company's Point of Contact. It is mandatory to join the organization once you accept the offer letter.

This applies even under cases of direct communication with the recruiter.

In case of **higher education plans** (MLS, ASP, others)**/SGO's (Self Generated Offer)** you are expected to have complete transparency before,during and after the interview. You must inform the CDO in advance about the same.

Any information shared in any mandatory session organised by the Placement Committee would be considered as an official channel of communication.

Please note that attending the CDO Preparatory Programme is ***mandatory*** for applying to roles on Superset. The same Code of Conduct (as mentioned on page 2), applies to these sessions as well.

Keeping the students' interest in mind, the CDO will be sending out **Superset undertakings/surveys** from time to time. You should promptly fill these out to communicate your interest in the campus placements and ensure you enrol in the placement cycle.

Punctuality: For any event in the placement process, students are expected to make sure that they are ready, technically and otherwise, at least 20 minutes in advance, so that if anything comes up, last minute hassles can be avoided.

3rd Year Undergraduates

If a 3rd-year undergraduate student receives a Category 1 company offer from campus and declines it to come back for the ASP, they will not be allowed to sit for Day Zero placement for any sector. The same applies for **YIF returning for MLS** immediately after the fellowship.

In case the student declines an offer from a Category 2 company, the student will be allowed one job offer from a Category 2 company in the next year's placement cycle. This policy applies to any student returning in the following year for any programme that Ashoka offers.

4th Year Undergraduate

4th year undergraduates (not ASP- these are students who are still pursuing the UG program in their fourth year) will be in the same pool as the 3rd year undergraduates for

the placement process.

Lying/exaggerating/misrepresenting information

If a student is found to be fabricating information, faking achievements, exaggerating facts, and indulging in other such dishonesty on their resume, cover letters and interviews, they will be blacklisted for a period of time, as decided by the Placement Committee. The Placement Committee may also conduct randomized fact checks at various stages of the Placement process. Repeated violations of the Placement Policy would result in more serious disciplinary action, including debarment from the placement cycle.

Zero Day Pointers:

Process : The students will be shortlisted by the company before the actual Zero day and only the final interview will happen on that day.

Multiple Offers Policy: For students shortlisted for multiple companies, they will have to fill in a google form with their preference from first to last, before attending the first interview on day Zero. If they get placed at multiple companies they will be getting the offer according to the preference list. This will be sector wise which is in a chronological order.

For example- If you are shortlisted by Bain (consulting) and Google (tech) and receive an offer from Bain, you can't sit for the Tech or any other roles that you might have been shortlisted for because Consulting Day Zero chronologically occurs before Tech Day Zero.
However, if you are shortlisted by Bain and McKinsey, which are both Consulting firms (same sector) you can choose your preferred company according to the google form that you submitted before sitting for your final interviews.
