Position (Designation): Fellow | Program and Portfolio Support - Marico Innovation Foundation

Organization: Marico Innovation Foundation

Location: Mumbai Based

Grade: Contract

Duration: June'23 – April'24 (1 year)

Purpose of the role

A contractual role for early career professionals who want to be part of the startup enabler ecosystem. The role will directly support the growth of innovative startups through research and operational support. The role involves consultation with senior stakeholders of the startup ecosystem including VCs, Accelerators, CXOs and CEOs or corporates

Job Description

Research

- Identifying key business challenges being faced by innovators
- Identifying and onboarding mentors that can support the innovators in solving the challenges identified [CXOs and CEO grade mentors]
- Identifying and collaborating with partners that can provide Market Access opportunities to innovators in both Indian and Global Markets
- Identifying regulatory challenges for innovators in the space of Plastics and Waste Management and creating concept notes for government advocacy
- Assisting the team to manage a cohort of 14 innovators
- Ideating and executing marketing efforts of the program
- Conducting primary and secondary research on developing new programs for innovators

Logistics

- Facilitating connections of mentors and corporates to innovators
- Traveling and attending startup events & Mixers to build connections
- Providing logistical support to conduct a Demo-day for investment

Qualifications Required

- Bachelor's Degree from a highly accredited university or equivalent
- The ideal candidate will have demonstrated knowledge and interests in Business, Economics, waste management or any other allied fields
- Passion to work with startups and understand more about the ecosystem
- Previous experience of working with Incubators, Accelerators or VC (*optional)*

Competencies "Must Have"

- Interest in understanding the start-up and innovation ecosystem in India
- An ability to understand the scalability of organizations from a business standpoint
- Excellent research and organization skills
- High analytical thinking and problem-solving skills
- Structured verbal and written communication skills
- Collaborative mindset and open to new ideas
- Proficient with the use of MS Office (word, excel, and PowerPoint)
- Proficient verbal and presentation skills

Reporting Relationship

- Reports to Head: Scale-Up lead and new interventions at Marico Innovation Foundation
