Center for Thinking, Language and Communication

At CTLC, we believe that the key to breakthrough value creation and innovation lies in developing a deep understanding and mastery of thinking, language, and communication. We engage in cutting-edge research and education at the intersection of technology and these 3 fundamental pillars. In a world where the boundaries between human and machine blur, this quest has never been more vital. As part of Plaksha University's visionary mission to create a world-class institution dedicated to advancing science and technology for the betterment of humanity, CTLC is at the forefront of groundbreaking research that challenges what we know and pushes beyond the boundaries of possibility.

Position: Administrator, CTLC

Within the first year, CTLC has successfully developed three verticals: stemX- The teaching wing, Textus- the writing and publishing wing and, TECN- The networking wing. The stemX vertical design curriculum and pedagogy and delivers courses on Thinking Language and Communication for these three groups of people undergraduates, post-graduates, and Ph.D. scholars.

The TextUS vertical focuses on training and mentoring the Plaksha community to write and publish books as well as articles in popular media.

TECN is the network of technology and engineering communication that CTLC is forming by partnering with both National and international engineering departments and colleges.

We are also in the process of setting up CTLC Labs and studio.

As the CTLC Administrator, you will support the director’s office for the smooth functioning of all the above stated verticals. You will be responsible for coordinating the work of the team, scheduling appointments, maintaining records, storage of all digital resources, planning and overseeing workflow processes.

While, being part of the director’s office you get the opportunity to see the larger picture of the center and its role in the university and beyond, your skills of attention to detail, meticulous planning and organizing as well as the uncanny gift of coordinating with the diverse number of people to ensure outcomes and outputs are delivered.

Key Objectives and Responsibilities:

- Assist the director in research and publishing pursuits.
- Manage the directors commitments, communications and relationships. ● Establish and implement processes to help in smooth functioning of the center's various activities.
- Work closely with the CTLC team members.

Desired Skills and Experience:

- Attention to details
- Strong organizational and time-management skills
- Excellent Communication skills both spoken and written.
- Coordination and communication between various stakeholders
- Proficiency with MS office, excel, word. etc
- Scheduling and reporting of meetings
- Managing workflow processes
- Troubleshooting and problem solving
- Budget and Finance: Monitoring budgets, ensuring the center or any activities operate within the budget.
- Liaison between CTLC and various departments within the universities.
