Center for Thinking, Language and Communication

At CTLC, we believe that the key to breakthrough value creation and innovation lies in developing a deep understanding and mastery of thinking, language, and communication. We engage in cutting-edge research and education at the intersection of technology and these 3 fundamental pillars. In a world where the boundaries between human and machine blur, this quest has never been more vital. As part of Plaksha University's visionary mission to create a world-class institution dedicated to advancing science and technology for the betterment of humanity, CTLC is at the forefront of groundbreaking research that challenges what we know and pushes beyond the boundaries of possibility.

Position: textUs Fellow, CTLC

Within its first year, CTLC has produced both academic and popular outputs. The vertical within CTLC that focuses on this is called TextUs. Over the next few years, CTLC will dramatically expand its output. As a stemX fellow, you will be responsible for various publishing outputs and will report to CTLC Publishing Lead. You will be involved in various stages of publication from ideation and pre-production to post-production and marketing.

Your responsibilities will include scoping and managing projects from ideation to publication, implementing production workflows, ensuring quality control, and building relationships with key stakeholders in the academic and popular publishing industry. To succeed in this role, you should have a curiosity for science and technology, passion for storytelling, an eye for detail, excellent project management skills, and some experience in publishing.

This is a fixed term role of 1yr extendable by another 1yr. It is ideal for someone looking to gain the right holistic experience before applying for a pHD or building a career as an engineering communications specialist. A total of 3 stemX fellows will be hired for the academic year 2023-24.

Key Objectives and Responsibilities:

- Identifying and developing new potential publishing projects.
- Work closely with authors (researchers and students) to develop their manuscripts with care and precision, providing feedback and guidance throughout the editorial process.

- Liaison with external publications and publication houses to secure opportunity for publishing
- Assist in organizing and conducting workshops on reading, writing and publishing for students, staffs, and faculty
- Organize communication related events in the university, like writeathon, literary festival, and author speak, etc.
- Design and conduct courses on creative writing
- Develop a love for literature and a culture of writing in the community

Desired Skills and Experience:

- Experience in one or more stages of publishing from pre-production to production and post-production.
- Excellent communication, both written and verbal.
- Highly organized and can manage multiple projects simultaneously.
- Proficient in Microsoft Office Suite and familiar with Adobe Creative Suite.
- Knowledge of online publishing platforms and digital content creation.
- Experience in writing and publishing at various levels.
- Proofreading and editorial skills.
- Skill and experience in digital and multimodal communication is an added bonus.
- Well read with the ability to interpret text and voice is important
- Skills of content writing, design and social media is desirable
