About Reap Benefit

Reap Benefit is in this endeavor of building and growing the solve Ninja Movement - *"Solving for India, one street at a time, by activating everyday leaders called solve ninjas"*

We are on a mission to enable 1 million citizens to engage in civic & environmental problem solving in their local communities to reshape citizen participation & strengthen local self -governance by 2025.

Till now we have activated 50k + Solve Ninjas (around 80% of them continuing as citizen social intermediaries), who have taken 94k + civic actions, started 3143 campaigns, and built 552 civic innovations to address local civic and public issues across the country.

Who is a Associate, Data Team?

We are looking for enthusiastic Interns who will serve as a bridge between the program team and Tech & Data team. They will understand the data management needs of the program team and assist with data management and day-to-day operations required towards maintaining it. The program teams collect data from various stakeholders on our Solve Ninja Chat Bot (whatsapp powered chatbot) on a regular basis. The data holds rich insights that will help better our programs and the experience we provide to our stakeholders. This Intern will play an important role in managing this data and pulling out the insights from the same.

Solve Ninja Chatbot: Whatsapp based bot with a vision of helping youth to take first problem solving action through challenges and act as a running mate to nudge them to take multiple actions and build their civic muscle to be an active and participatory citizen.

If you want to experience how we leverage chatbot, click this link and hit send:

Typical day for our Data Associate looks like:

Anchor the monitoring and evaluation of ongoing programs

- Includes data maintenance (cleaning, making improvements and responding to breakdowns) for the processes, dashboards
- Scope of above extended to include - Business development data, impact data, assessments data of citizenship and skills, stakeholder feedback, internal surveys, campaigns data, governance dashboards
- Documentation as per the ongoing data and documentation manual of the organisation

Anchor the data culture within the organisation

- Sharing reports (bi-weekly, monthly, quarterly) across verticals - hubs, spokes, super spokes, governance for continuous analysis and improvements of programs
- Reports to be made for - internal team members, externally, social media,
- Building rituals with team leads to share reports, troubleshoot and develop deep understanding of data

Along with your core responsibilities, each team member in Reap Benefit is expected to play a support role to other teams as per the need in the organisation.

Our Associate will need to have:

- Ability to manipulate and visualise data through data studio dashboards, reports and present insights, questions, inputs to team leads
- Excel/ Google Sheets
- Data Studio
- SQL (good to have)
- Ability to think user centric (team members, partners, solve ninjas) plan for short term & long term and involve team members
- Ability to take and give feedback
- Good to have learners mindset towards
  - R
  - Python
  - Postgres DB
  - Javascript

It will be a bonus if the Associate can also have:

- Have a deep commitment to Reap Benefit's mission towards solving local issues
- Intent to be a better citizen
- Good Comic sense :)
