About Reap Benefit

Reap Benefit is in this endeavor of building and growing the solve Ninja Movement - *"Solving for India, one street at a time, by activating everyday leaders called solve ninjas"*

We are on a mission to enable 1 million citizens to engage in civic & environmental problem solving in their local communities to reshape citizen participation & strengthen local self -governance by 2025.

Till now we have activated 50k + Solve Ninjas (around 80% of them continuing as citizen social intermediaries), who have taken 94k + civic actions, started 3143 campaigns, and built 552 civic innovations to address local civic and public issues across the country.

Who is a Mentor, Community Team?

We are an organisation whose core work is to build self sustaining hyperlocal communities across all regions in India. The Mentor is going to play a critical role in helping the team to achieve this goal. They will be the community managers building and sustaining these communities of youth and citizens on ground through engaging activities and events, be responsible for running day to day operations with the community presidents, ensuring the communities have all the resources and capacity to sustain in the region. The mentor for the community team, like all other members of the team, has to strongly believe in the importance of on ground mobilisation, power of communities and youth and be comfortable with managing data and technology.

Typical day for our Mentor looks like:

- Develop an in-depth understanding of the challenges within civic space, local governance and related issues from the youth point of view and be actively involved in solving these problems
- Execute weekly rituals (activities designed to increase the engagement within the community) with all the communities consistently.
- Curate offline and online spaces/events to engage the members within the communities and to acquire new members into the community.
- Build relationships with some of the most active members within the communities with an idea of creating a core group
- Gather feedback from the members and share it back with the team to enhance the model
- Develop a good understanding of the our tech platform and ways to leverage them to increase the engagement in the communities

- Collect and share data coming from the communities to the program manager and vertical lead to iterate the changes required in the design.
- Timely document all the progress, stories, data and challenges across the communities.
- Write and share regular updates and stories with the communities and larger team to create a shared understanding of movement building

Along with your core responsibilities, each team member in Reap Benefit is expected to play a support role to other teams as per the need in the organisation.

Our Mentor will need to have:

- Have 2+ years of experience in managing communities or working in the civic engagement sector
- Be comfortable working in communities, as well as in building relationships with diverse stakeholders
- Strong relationship building skills, stakeholder management and discipline to follow processes
- Communication skills so as to deliver a compelling message through oral and written mediums to diverse stakeholders
- Fluent in either English/Kannada/Hindi/Punjabi
- Willingness to be active in field-based activities to understand the pulse of the communities
- Ability to be resourceful and solve problem in the face of uncertainty.
-

It will be a bonus if the Mentor can also have:

- Have a deep commitment to Reap Benefit's mission towards solving local issues
- Intent to be a better citizen
- Good Comic sense :)
