Talent Solutions
Right Management
ManpowerGroup

Job Description:

Job Title:	Analyst		**Function:**	Consulting Delivery
Qualification:	MBA/MSc (with 0-3 years work experience in HR/OD/L&D)		**Location:**	Bangalore/ Mumbai/ Gurgaon
Reports to:	Program Manager/AVP/VP			

Job Purpose:

To be innovative, flexible and quality conscious while delivering on client engagements, writing proposals, front-ending with clients and contributing to internal processes of the organization. To deliver on stretched targets and extended goals as and when required.

Position Summary:

Right Management is a global leader in Talent and Career Management Workforce Solutions; and is a wholly-owned subsidiary of ManpowerGroup, a global leader in employment services. We design and deliver solutions to align talent strategy to business strategy. Our solutions are focused across the following five practice areas viz. Talent Assessment, Leadership Development, Organizational Effectiveness, Employee Engagement and Workforce Transition & Outplacement.

With offices in over 50 countries, Right Management partners with companies of all sizes – 80% of which are Fortune 500 – to help engage and develop their talent, increase employee productivity and optimize business performance.

The position reports into a Program Manager/AVP/VP, who is expected to provide conceptual clarity of an engagement with defined deliverables to the incumbent, help the job holder to understand the impact of the engagement from overall business perspective and increase product knowledge.

The job holder is responsible for implementation and execution of project deliverables within specified timeframes at the ground level under the supervision of the Project Manager. The job holder is expected to work on client delivery, keeping in mind the quality of deliverable required as well as the timelines to be adhered to. The job holder is expected to undertake stretch targets and deliver on them while simultaneously displaying the abilities to learn on the job and work effectively in a team. The job holder is also responsible to lead the projects in absence of the Project Manager.

S/he is required to constantly interact with people from across the client organization during the delivery of projects and liaison with other agencies like travel services and printers, stationers etc, for logistical requirements.

The job holder is required to understand the business context, Right Management's products and services and prepare proposals based on given guidelines and validate the same with his/her

seniors and actively contribute to research on targeted industry sectors. S/he is also responsible for initiating calls to prospective clients and arranging for business development meetings with the senior leaders of the organization.

S/he is required to participate in various events in the organization and contribute to fun at work.

The job holder is responsible for administrative activities such as raising invoices as per project delivery, debit notes of outsourced vendors and cab bills. S/he is responsible for uploading documents on Knowledge Management on a regular basis and updating the time utilization sheet on adrenalin on a weekly basis.

Key Responsibilities:

1. To execute and deliver projects and ensure quality of projects in terms of timelines, deliverables, and logistics [60%]
2. To identify and pursue new opportunities with new or existing clients for lead generation [15%]
3. To assist in developing winning business proposals for prospective clients after understanding the context, doing backend research and taking inputs from seniors [15%]
4. Adherence to internal processes & contribute to internal activities [10%

Key Competencies:
