About the Company

SOY Asset Management is a joint venture between YGR Holdings and Stellar Group. The partnership operates in the commercial real estate sector and is focused on mid-sized office assets with value-add potential. SOY currently manages three office buildings in Delhi NCR, with area aggregating to approximately 1 million sq. ft. SOY is responsible for leasing and maintaining operations including managing the tenancy of these commercial office buildings. SOY is responsible for the P&L of each real estate asset held in individual SPVs.

Job Purpose

1. Provide overview on leasing status of the real estate assets under management (SPVs) of SOY
2. Prepare techno commercial proposals and offers and communicate these to prospective clients
3. Prepare MIS reports of the real estate assets (SPVs) for presentation to internal teams and to investors
4. Ensure adherence to SOPs and liaise with various functional teams to ensure compliance to processes and standards
5. Manage selected leasing queries independently
6. Manage tenant database and business partner database
7. Ensure timely and accurate dissemination of leasing information to the relevant parties
8. Liaise with broker network to enable closure of transactions and to assist with all leasing functions required to improve leasing velocity for real estate assets under management (SPVs) of SOY

Job Summary

For each asset (i.e. each SPV which owns the asset):

1. Managing and streamlining all leasing operations of the SPVs which are supported by a detailed set of policies, procedures, and forms. Leasing operations typically include dissemination of information to relevant parties,conducting site visits,follow ups with prospective tenants and provision of information being sought as well as assistance in closure of a transaction and post-leasing operations.

2. Preparation of the monthly Management Information System reports and leasing forecasts for each commercial real estate asset and report variances

4. Prepare and review each SPVs leasing documents such as Lease agreements, Maintenance agreements, Addendums etc in close co ordination with the Leasing Head

For SOY Asset Management (i.e. the partnership that provides asset management services to each SPV)

6. Preparation of leasing funnel for SOY Asset Management based on leasing queries
7. Managing Management Information System pertaining to leasing functions of SOY Asset Management.
8. Maintains a system of implementing and reviewing Standard Operating Procedures pertaining to Leasing
