Company Vision

Our Culture, our Family, our Financial System, inherently teach us "How to Save Money"
No one teaches us "How to Invest Money." Even seasoned professionals in IT/ITES and BFSI sector, CA, CFA, MBA degree holders, stick to Fixed Deposits and lack the confidence to invest in Alternative Assets.

'StockGro' is breaking this behavioural barrier by helping users learn how to Invest money.

"Invest Karega India, Tabhi to Badhega India"

StockGro is a mobile-first cross-platform (Android & iOS, Mobile + Web App) Fintech product that's empowering 25 million+ users to master the art of trading and investment in a risk-free and gamified manner. At StockGro - India's First and Largest Social Investment Platform, users indulge in Social Investing and learn various trading strategies by interacting with leading fund managers, F&O traders, and algo traders.
