# JD - SEO Analyst

**Company Vision**

Our Culture, our Family, our Financial System, inherently teach us "How to Save Money"
No one teaches us "How to Invest Money." Even seasoned professionals in IT/ITES and BFSI sector, CA, CFA, MBA degree holders, stick to Fixed Deposits and lack the confidence to invest in Alternative Assets.

***'StockGro' is breaking this behavioural barrier by helping users learn how to Invest money.***

***"Invest Karega India, Tabhi to Badhega India"***

StockGro is a mobile-first cross-platform (Android & iOS, Mobile + Web App) Fintech product that's empowering 25 million+ users to master the art of trading and investment in a risk-free and gamified manner. At StockGro - India's First and Largest Social Investment Platform, users indulge in Social Investing and learn various trading strategies by interacting with leading fund managers, F&O traders, and algo traders.

**About StockGro**

Founded in January 2020 by former venture capitalist Ajay Lakhotia, we're well-funded and have closed a massive Pre-Series A fundraise. We are backed by some of the respected investors - Roots Ventures, Velo Partners, Creed Capital, and the likes of Kunal Shah, Vivekananda Hallekere, Rahul Garg as Angels.

We have some brilliant minds with us, working on a mission to make 400 million Indian millennials investment-ready, with Senior Executives from Sequoia, Swiggy, Glance, Airtel, Uber, and institutions like ISB, NITs, and IIMs.

***A message from our CEO Mr. Ajay Lakhotia: https://stockgro.club/ceomessage/***

**Responsibilities:**

- Develop and execute a comprehensive SEO strategy to improve organic search rankings, traffic, and conversions for our website, blog, and social media platforms.
- Conduct keyword research and analysis to identify content optimisation and creation opportunities.
- Optimize on-page elements such as meta tags, headers, and internal linking structure to improve search engine visibility.
- Manage off-page optimisation efforts, including link building and outreach to external websites.
- Monitor and analyse website analytics and SEO performance metrics to measure the success of SEO efforts.
- Collaborate with other team members to ensure that content is optimised for SEO and aligned with overall marketing objectives.
- Work in close collaboration with the product and technology team on SEO projects and build BRD (business requirement document) for new SEO initiatives for better visibility that shows business impact
- Doing regular site audits, and site crawling to fix technical issues
- Keep abreast of industry trends, contemporary practices in SEO, and Google algorithm updates. - Understand the implications for our business and take action to quickly seize the opportunity and reduce risk.
