JD - Ui/Ux Designer

Company Vision

Our Culture, our Family, our Financial System, inherently teach us "How to Save Money"
No one teaches us "How to Invest Money." Even seasoned professionals in IT/ITES and BFSI sector, CA, CFA, MBA degree holders, stick to Fixed Deposits and lack the confidence to invest in Alternative Assets.

'StockGro' is breaking this behavioural barrier by helping users learn how to Invest money.

"Invest Karega India, Tabhi to Badhega India"

StockGro is a mobile-first cross-platform (Android & iOS, Mobile + Web App) Fintech product that's empowering 25 million+ users to master the art of trading and investment in a risk-free and gamified manner. At StockGro - India's First and Largest Social Investment Platform, users indulge in Social Investing and learn various trading strategies by interacting with leading fund managers, F&O traders, and algo traders.

About StockGro

Founded in January 2020 by former venture capitalist Ajay Lakhotia, we're well-funded and have closed a massive Pre-Series A fundraise. We are backed by some of the respected investors - Roots Ventures, Velo Partners, Creed Capital, and the likes of Kunal Shah, Vivekananda Hallekere, Rahul Garg as Angels.

We have some brilliant minds with us, working on a mission to make 400 million Indian millennials investment-ready, with Senior Executives from Sequoia, Swiggy, Glance, Airtel, Uber, and institutions like ISB, NITs, and IIMs.

A message from our CEO Mr. Ajay Lakhotia: https://stockgro.club/ceomessage/

Responsibilities:

- Conduct user research and usability testing to understand user needs and behavior
- Create wireframes, prototypes, and high-fidelity visual designs for both web and mobile applications
- Collaborate with product managers and developers to ensure design solutions are feasible and aligned with the product vision
- Stay current with emerging design trends and technologies and incorporate them into your designs
- Ensure a consistent and cohesive visual experience across all products and platforms.

Requirements:

- A strong portfolio demonstrating experience with UI/UX design for web and mobile applications.
- Proficiency in design and prototyping tools such as Sketch, Figma, Adobe
- Excellent visual design skills, with a strong understanding of typography, color theory, and composition
