Working at Teach For India

Teach For India is on a journey to reach an India free of poverty and filled with love by ending educational inequity in our country. Twelve years into our journey we are a movement of 3800 Alumni working at all levels of the education system, who are reaching 1 in 10 children across the country. These Alumni have graduated from our two-year Fellowship Program where they taught in under-resourced classrooms to put 32,000 low-income children on a different life path. Today, we have 970 Fellows and are the largest pipeline of driven, skilled talent into the educational ecosystem in India.

In 2022, we embark on **Phase 4**, our fourth strategic phase. We have a bold and ambitious ten-year journey ahead of us that aims to **grow 50,000 leaders**, who will **work collectively**, and **with love**, to **transform the lives of 1 in 10 low-income children in our regions**, through an **education that unleashes the potential of self, others and India**. In this decade, five key priorities will lead us to this vision.

1. **Strengthen** our core Fellowship to build strong teacher leaders who provide an excellent and equitable education to our children and continue to do so beyond the Fellowship
2. **Scale** our impact by strategically introducing additional Fellowships as alternative pathways for leadership development
3. **Match** the Alumni of our programs at an intersection of their interests and the needs of the system and our children
4. **Advocate** for key issues that impact educational equity, and engage 3.5% of the population in the movement for educational equity
5. **Act** collectively with our Alumni to learn about and address key issues in our regions.

Our work will only be completed when we have built a movement of leaders that is large enough to ensure that every child in India attains an excellent education.

We pride ourselves as being a passionate, idealistic, mission-driven team of individuals. We're committed to learning and excellence in our roles, and to being deeply rooted in our core values.

What Teach For India Can Offer You

- The opportunity to be part of one of the most established and visionary movements in the education sector in India which is at a pivotal point in terms of expanding its scale and outreach across the nation and working with changemakers across the country.
- A challenging yet flexible workplace in which every individual employee's Staff journey is tracked for excellence and leadership development.
- A work environment in which employees' holistic well-being is a core priority, enabling people to be their best selves.
- Access to connections and resources from the global Teach For All network that includes partner organizations spanning 50+ countries across 6 continents.
- Remuneration that is competitive within the top quartile of the Indian NGO pay scales, and a benefits package that includes extensive medical insurance and maternity coverage for both parents.

Position Summary

Reporting to: Director, Human Resources

Directly Managing: Associate, Performance Management

As we strive to build a high-performing organization, this role will execute our vision and priorities to bring our Leadership Development Journey to life. At Teach For India, our performance management is both an evaluative and developmental mechanism, and we believe that you meet ambitious goals in developing your leadership.

As a Manager, Performance Management

- Design, implement, review and iterate a fair, transparent and inclusive Performance Management System for 100% teams at Teach For India; drawing from leading practices, data trends and feedback
- Lead organizational roll out, completion and auditing of key stages in the annual performance management cycle, including:

1. Annual Goal-setting process
2. Bi-annual performance reviews - called Leadership Development Journey Conversations (LDJCs) at Teach For India.
3. Support for low-performance and recognition of high-performance across diverse functions, levels, and tenure in the organisation;

- Work closely with internal and external stakeholders to gather significant quantitative and qualitative insights across critical HR functions and the organization to make meaningful connections in performance (ex. Engaging for Results survey, competency analysis, training needs, exit data, etc.).

- Work collaboratively with senior leadership and across HR functions to inform key decisions with performance data and linkages
- Own the performance management cycle process from start to end and monitor the timely and accurate completion of the systems (e.g. forms and templates, communications);
- Lead the vision and execution of a high-performance recognition and rewards system at Teach For India;
- Directly support, mentor and develop 1 Associate resource working on performance management

As a People Manager

- Building a robust **pipeline of talent** to lead the organization
- **Managing and coaching** the Directors in the cluster to achieve ambitious outcomes
- Driving **engagement, growth, and retention** of team members
- Engineering and overseeing a **monitoring and evaluation system**, coupled with strategic direction, to guide our abilities to improve continuously

As a Manager at Teach For India

- Contributing to **the team goals and priorities** beyond individual goals and priorities
- Serving as an **ambassador of the Teach For India brand** and an advocate for our work and for educational equity in our country through both internal and external communication after committing time in our classrooms to understand our work more deeply
- Supporting key organizational areas such as **Recruitment, Selection, Fundraising, Volunteering, Movement Building**

Minimum Qualifications, Experiences and Expectations

- 3-5 years of professional experience
- Experience in driving operations in high-pressure, goal-driven environments
- Experience having collaborated effectively with a broad range of individuals and groups
- Experiences and examples of having taken initiative in the past
- Previous experience in teaching/education would be an added advantage (not mandatory)

Preferred Qualifications, Experiences and Expectations

- Able to lead complex end-to-end analysis; makes connections, distill insights, and craft next steps independently;
- Able to Independently unpack issues and synthesize multiple perspectives or trends towards arriving at the root cause of a problem;

- Able to Independently structure and present output-ready communication deliverables;
- Able to Include the lens of equanimity in decision-making and planning, especially in times of crisis, while maintaining alignment with the vision and mission of the organization.
