Fellowship at The Antara Foundation

About the organization:

At the Antara Foundation (TAF), we work to strengthen the last-mile delivery of public health solutions. Our core belief is that maternal and child health depends on access to timely and quality care. We work with and through the government system, helping build the capacity of frontline health workers, using data for better implementation and decision-making, and mobilizing communities to seek better health outcomes. Our solutions are designed to work at scale, are sustainable, and are simple to implement on the ground.

We are a young, energetic, and passionate team, working across 8 districts, 39 blocks, 5,700 villages, with 8,800 FLWs, and reaching 379,000 women and 650,000 children in central India. Over the next few years, we see ourselves spreading across multiple locations in India to implement our solutions and to create an impact *at scale.*

The fellowship at TAF is a grassroots experiential learning program designed for budding entrepreneurs or those looking for career enhancement, higher education, refining professional skills and competencies or just exploring the public health or development landscape. The fellowship provides an invaluable experience of working in the field and closely interacting with the community and government officials.

Why should you join the Antara Foundation?

The Antara Foundation is the ideal organization for budding leaders and passionate contributors

This fellowship is an opportunity for those who seek a challenge. This unique experience blends hands-on practice of problem-solving and innovation with regular mentoring by industry veterans. You will learn the ability to innovate, own projects and outcomes, and build critical skills. You will also learn to work in a grassroots context, working with the last-mile providers of public health in some of India's most remote regions, building for yourself, a perspective of development challenges and solutions from the ground up in a safe, supportive environment. At TAF, our vision is to be the best place to work across all industries. Our culture and value system are at the core of this vision. We believe in investing in our teams and providing everyone with opportunities for growth.

What do we look for?

- An undergraduate or postgraduate degree in any discipline. Masters in Social Work(MSW)/ Masters in Public Health (MPH)/Masters in Development Studies/MBA in Rural Development would be preferable.
- Excellent communication skills in both English and Hindi
- Ability to analyse reports, plan and monitor project plans
- Someone who is passionate, bubbling with ideas and has the willingness to learn.
- We look for a person who will fit in our culture and is passionate to play important role in shaping Antara's future, and above all excited at the prospect of working for a larger cause and saving tens of thousands of lives.

If this is you, get in touch and write to us at careers@antarafoundation.org We have limited positions, which we will fill on an ongoing basis. Apply soon!
