ABOUT TURTLEMINT

Turtlemint is one of India's largest InsurTech companies. Launched in 2015, Turtlemint works on educating customers and helping them research across all segments of insurance. It also has its own network of advisors who are empowered with all necessary training, tools and license to sell insurance and other financial products like Mutual Funds, Loans and e-Gold. It has a wide multi-brand distribution network through its multi-language mobile application - **MintPro**

With an **advisor network of over 200,000** that caters to **1.5mn+ customers** across 800 cities in India, Turtlemint today has an overwhelming majority of Indian insurance companies as its partners. With a goal to improve the skill and knowledge of the Insurance advisor community, it has invested in technology offerings, online training and shareable content. The Mumbai-based startup has been funded by Sequoia Capital, Nexus Venture Partners and Blume Ventures.
