PROGRAM ASSOCIATE @ VEDDIS FOUNDATION

Location: Delhi NCR

About Veddis Foundation

Veddis is a global philanthropic foundation investing in organisations working at the intersection of technology, policy, and impact. With a mission to create deep and irreversible positive impact, we also work directly with the government on effective public service delivery. We hope to bring analytical rigour and a collaborative spirit to philanthropic investments in India. We have worked directly with multiple state governments and invested in some of the most innovative initiatives in the social sector. In September 2021, we announced a Rs. 100 crore commitment over the next three years. Read more about us here and here. Some recent coverage about our work here, here, here and here.

We are rapidly accelerating our work and are looking to hire early-in-career associates.

Role Summary:

We are looking to hire Program Associates to join the Rural Livelihoods team, which works on improving governance and building capacities towards improved policy implementation of the National Rural Livelihoods Mission (NRLM) and State Rural Livelihoods Missions (SRLM). This is a great opportunity for those who enjoy working in a fast paced start-up environment, enjoy building and scaling initiatives and care deeply about evidence and impact. This role includes working with senior internal and govt stakeholders, engaging with them on strategic projects that have the potential to advance progress on key development challenges.

As part of being in a global foundation with a large philanthropic outlay over the next 3-5 years, Associates will also get the opportunity to work on the other foundation priorities - grants, policy partnerships, etc. It's a small nurturing team doing impactful work that is recognised nationally. If you are keen to make meaningful contributions towards solving difficult societal challenges using data, analysis, and govt partnerships then this could be a great early-in-career role.

Primary Responsibilities

- Conduct secondary research, analyze and synthesize information to provide key insights. Turn research and data into meaningful insights.
- Create knowledge products across priority areas, including engaging in secondary research, speaking with experts/practitioners and weaving in data from multiple data points.
- Understand research methodologies and formulate standardized qualitative reporting

mechanisms.

- Effectively collect and use data points to derive analytical reports and visualizations to be shared internally and externally.
- Support senior managers with research and insight, recommending an appropriate approach. Take ownership of project tracks as reqd.
- Assist in overall program development by way of creating case studies, infographics, and articles.
- Engage with different state level teams to keep abreast with program developments.
- Take on diverse operational tasks to ensure organisational success and continuous learning.

Experience

- Early in career candidates, with up to 3 years of experience and demonstrated interest in public policy.
- Preference will be given to candidates with prior experience in either working with govt stakeholders and/or in public policy.
- Ability to engage and work with large-scale Government data and scheme documents.
- Working knowledge /experience in undertaking qualitative and quantitative research methods and ability to use data in effective communication via briefs and reports.

Desired Qualifications & Skills

- Bachelors or Masters from a reputed institution in a related field (Economics, Statistics, Mathematics, Public policy etc)
- Good research, analysis, and written communication skills.
- Skilled in analytical and data tools
- Eager to take initiative, work independently in a small team set up.
- Willing to travel as reqd.

Compensation & Benefits

Salary will be competitive with Indian philanthropy pay scales and will vary based upon the candidate's experience. Benefits include insurance, professional development fund, etc.
